## A good morning, every morning

Down-to-the-degree temperature control from 140° to 212°F (60° to 100°C). That means the perfect temperature for the perfect cup.

More time to enjoy your delicious morning brew thanks to quick boiling.

Hot water is always ready for you with our heat-and-hold feature. No waiting around.

Built with brushed stainless steel and BPA-free plastic.

## Designed by professionals

### GOOSENECK SPOUT

Slow and steady wins the race. A spout designed to give you complete control over the flow rate of hot water.

### 1000 WATT HEATING ELEMENT

Boil water in 6 minutes which means less hanging around and more of enjoying delicious drinks.

### HEAT-AND-HOLD

Water stays at your desired temperature for up to an hour, so hot water is always ready for you.

### 6 TEMPERATURE PRESETS

Quick access to your favorite temperatures with the touch of a button.

### EASY GRIP HANDLE

Comfortable to hold for steady pours.

## What they're saying

"The Best Coffee Gear for Every Type of Java Freak" - GQ

"The sleek and chic kettle allows for pinpoint precision with ease." - Cooking Light
