RESIDENTIAL

ZAHA HADID

New York City, USA - 2018

MODEL UNIT

An Exclusive Look Inside Zaha Hadid's First New York City Residence "It's sculpture inhabited. "That's how Tiago Correia, the U.S. director of Zaha Hadid Architects describes his firm's condo building at 520 West 28th Street."We made a building that very deliberately blurs the lines between art and architecture," he explains. "That's our way to pay tribute to the location, to Zaha's work, and to the burgeoning lifestyle in the area."

West Chin and Jennifer Post created interiors that both highlight Hadid's work and, in a sense, soften it for everyday living. Furnished with Lazzoni Momy sectional sofa and Olivia bed.
