

Needs list
Session One of Stashbusters Club
Thursday 8th February, 10 am – 4 pm at Quilters Lane
2" by 3 ½"

Essentially, this is a fun class to discover several ways you can use your scraps by cutting just one shape, 2" x 3 ½" and by using favourite colourways or all scraps together, including light, mediums and darks. Please bring along:

Sewing machine and accessories

Cutting board, rotary cutter and ruler and/or square

Extension cord

Neutral thread

Lunch

Bring your container of mixed scraps (preferably pressed to save you having to iron them on the day).

To be prepared for class, you may wish to cut a selection of scraps into 2" x 3 ½" pieces prior to coming. 50 or 60 pieces of this shape in colour value (light, medium and dark) will get you started straight away and then you can add to the cut pieces once you decide what blocks you would like to make. Lights can represent any colour, as long as they read light against a medium and dark and are used as a background.

Any questions, please give me a call
