# WHY SONIC?

Sonic screens provide a cost effective acoustic solution, with a variety of screens to match all of the Accent desking. Use vibrant colours to lift the mood or mix with muted colours to soften the look.

### 1 **Cost Effective**

Acoustic screens are a great option when you have budget restraints.

### 2 **Stock Availability**

We offer a choice of 11 stock colours. This also means we can manufacture our screens with a short leadtime.

### 3 **Reduce Noise Transfer**

Our acoustic screens are NRC rated 0.41-0.70.

### 4 **Environmental**

The acoustic panel is minimum 65% recycled content. Manufactured using industrial grade non-woven Polyester Fibre made by recycling PET, and a waste material from plastic bottles.

## Environmental & Quality

The acoustic panel is Minimum 65% recycled content. It is manufactured using industrial grade non-woven Polyester Fibre made by recycling PET, and a waste material from plastic bottles. It is Manufactured in a facility ISO 14001 & ISO 9001 accredited.

## What is an NRC rating?

A Noise Reduction Coefficient is an average rating of how much sound an acoustic product can absorb. (How much quieter a product can make your space.) NRC ratings range from 0 to 1. An NRC of 0 means that the product absorbs no sound.

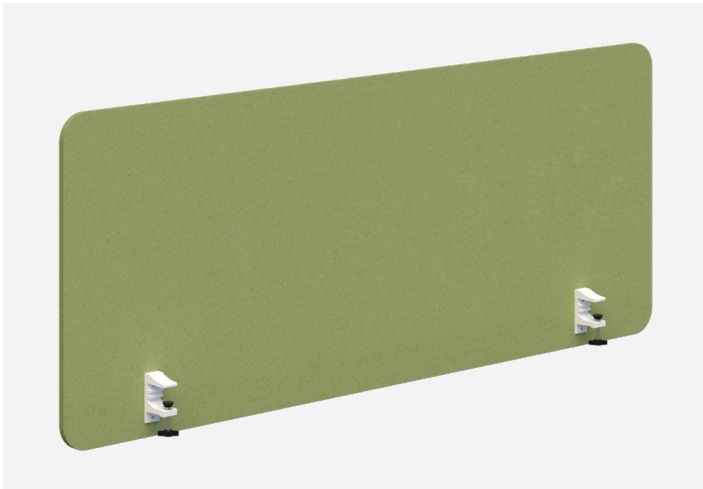

An NRC of 1 means that the product absorbs all sound. The higher the NRC, the better the product is at soaking up sound.
