Accent Environmental Statement

Accent strive to be a leader in environmental sustainability and believe that a successful future for our business and the customers we serve depends on the sustainability of the environment, communities and economies in which we operate.

As a responsible company we bear a responsibility to consider the impacts of our actions and how they affect the environment both in terms of our own operations, and indirectly through our purchasing decisions, the products and services we offer to our customers and the business opportunities we pursue.

We are committed to minimizing the impact of our operations on the environment and to demonstrating leadership by integrating environmental considerations into all our business practices.

Our design philosophy includes re purposing existing system components everywhere possible in new designs. This prevents waste from obsolescence and also means that many product elements can be re used if products are returned.

Recent initiatives:

- The primary cleaning solvent that was being used at Accent has now been replaced with a natural citrus based product which is better for the environment and better for the health of our workers
- We are currently working with our suppliers to replace any non recyclable packaging with recyclable and or compostable packaging
- Improving optimising and batching jobs together, to prevent board and fabric waste going to landfill.
- Carpooling for travel to and from work, and working from home where possible, to reduce vehicle related emissions

Our Certified Buy NZ Made Products

A wide range of our products are certified 'Buy NZ Made'.
