Ages 3+

**INSTRUCTIONS**

**AR DOUGH** The Lightest **MODELING DOUGH** on Earth! **UNICORNY WORLD**

**COLOR MIXING**

Red, yellow and blue are primary colors. You can make any colors you like by using these 3 colors along with black and white.

red + yellow = orange

red + blue = purple

blue + purple = dark blue

red + black = dark red

yellow + blue = green

yellow + green = lime

orange + black = brown

red + white = pink

**DIRECTIONS**

- Use under adult supervision.
- Wash hands before and after using dough.
- Keep dough away from open flame.
- Knead dough before molding.
- Place dough in cool place and avoid direct sunlight.
- Spray water on surface of dry dough, then knead it to return to its softness.
- Create new colors by following color mixing directions.
- Drying time depends on size of artwork.

1 Shape white dough into two cloud shapes.

2 Roll four strips of color and bend to make rainbow. Attach to clouds.

**AR DOUGH** The Lightest **MODELING DOUGH** on Earth! **UNICORNY WORLD**

**STAR**

1 Roll a yellow ball of dough.

2 Using tool, make flower shape, then pinch to make points.

3 Make indents for eyes and mouth, add white and purple details.

**AR DOUGH** The Lightest **MODELING DOUGH** on Earth! **UNICORNY WORLD**

**TIPS TO KEEP THE DOUGH FROM DRYING**

- Store dough in an airtight container
- If dough surface is left dry for a while, remove the surface layer and knead the dough for a few minutes.
- If the dough color fades, add a few drops of water and knead the dough. The color will return after a few minutes of kneading.
