### VENTED (CLASS C)

Ratchet Suspension | 5 Variations

- HPT261110V     White
- HPT261111V     Black
- HPT261162V     Light Blue
- HPT261130V     Yellow
- HPT261140V     Orange

### NON-VENTED (CLASS E)

Ratchet Suspension | 5 Variations

- HPT261110     White
- HPT261111     Black
- HPT261162     Light Blue
- HPT261130     Yellow
- HPT261140     Orange

**ADVANCED IMPACT ABSORPTION:** EPS foam liner absorbs forces from all angles for unparalleled protection

**ROBUST, LIGHTWEIGHT SHELL:** ABS shell ensures durable, lightweight protection

**COMFORTABLE PADDING:** Designed with strategically placed soft padding to ensure all-day comfort

**EFFORTLESS ADJUSTMENT:** Ratchet suspension easily adjusts to provide a perfect fit across all head sizes

**SECURE-FIT DESIGN:** 4-point cross-over chin strap with quick-release buckle for a secure, comfortable fit

# CHOOSING THE RIGHT HEAD PROTECTION

At Pyramex, our top priority is ensuring comfortable and dependable safety gear. We offer two types of head protection: Type I and Type II. Our hard hats and safety helmets adhere to the ANSI/ISEA Z89.1-2014 (R2019) standard and can be customized to meet individual needs. While many job sites now require Type II protection, we understand that transitioning from familiar headgear can be challenging. Our commitment to developing head protection that exceeds expectations in both comfort and functionality aims to help ease this transition.

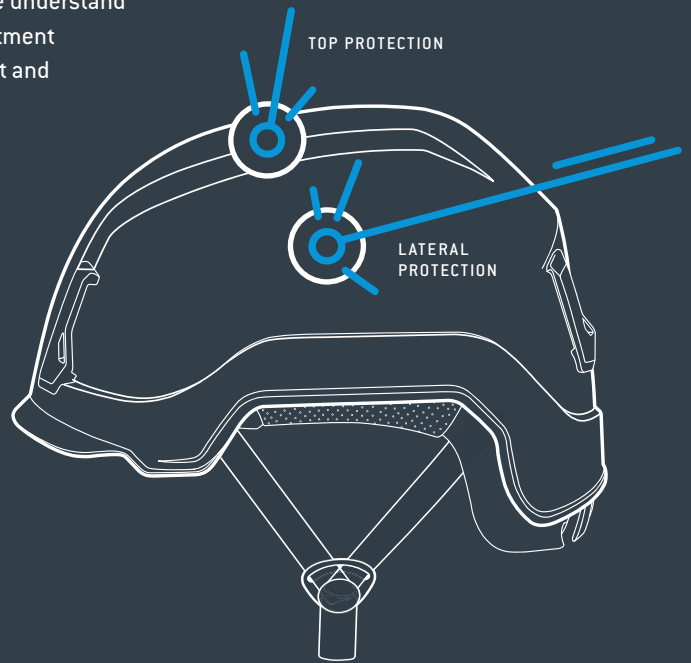

## THE RIGHT HEAD PROTECTION DEPENDS ON THE RISKS FACED ON THE JOB:

### TYPE I

Commonly used in industries where objects may fall from above due to its top impact protection.

### TYPE II

Provides expanded coverage, safeguarding workers not only from overhead hazards but also from lateral impacts. Well-suited for environments where workers are exposed to risks from multiple angles, rather than solely from above.

**NO MATTER THE JOB, PYRAMEX HAS THE SOLUTION**

# ENGINEERED PROTECTION THAT SURROUNDS

**SL T2 ISN'T JUST ANOTHER SAFETY HELMET, HERE'S WHY:**

### TOTAL PROTECTION, TOTAL COMFORT

Innovative impact absorption provided by an advanced EPS foam liner and a lightweight yet durable ABS shell, ensuring unparalleled protection without compromising comfort.

### CUSTOMIZED FIT, CONFIDENT WEAR

Tailored comfort features like adjustable ratchet suspension, strategic padding, and a secure 4-point cross-over chin strap design provide a perfect fit for every user, instilling confidence to focus on tasks with security and comfort.

### SUPERIOR SAFETY

Engineered to meet ANSI/ISEA Z89.1-2014 (R2019) Type II standard, providing durability and confidence in performance even in demanding work environments.

# EYE PROTECTION

## SL T2 VISORS

ANSI/ISEA Z87.1-2020 +

● HPT2HV10T – CLEAR H2MAX ANTI-FOG

● HPT2HV20T – GRAY H2MAX ANTI-FOG

**MAXIMUM ANTI-FOG CLARITY:** Treated with H2MAX to provide maximum clarity in extreme conditions while adding abrasion and chemical resistance, ensuring durable, waterproof vision even after repeated cleaning

**USER-FRIENDLY DESIGN:** Ratchet clips make visor adjustments intuitive and efficient

**EFFORTLESS ATTACHMENT:** Attach and detach the visor with ease, thanks to its quick-release/connect clip design that ensures a snug and secure fit every time

## VISOR PROTECTOR

HPT2PV

**ENHANCED PROTECTION:** Protects helmet visor from scratches and damage while not in use.

# FACE PROTECTION

## SL T2 FACE SHIELDS

ANSI/ISEA Z87.1-2020 + (HPT2FVM60 IS NOT RATED FOR HIGH IMPACT)

HPT2FV10 – POLYCARBONATE H2MAX ANTI-FOG (MEETS D3)

HPT2FVM60 – WIRE MESH

**ENHANCED SAFETY:** Constructed from robust materials, the shield frame and adapter protect and support face shield.

**USER-FRIENDLY DESIGN:** Ratchet clips make face shield adjustments intuitive and efficient

**EFFORTLESS ATTACHMENT:** Attach and detach the face shield with ease, thanks to its quick-release/connect clip design that ensures a snug and secure fit every time

**i** All accessories sold separately from the SL T2 Safety Helmet.

## SUN PROTECTION

### FRONT BRIM

HPT2BRIM

**UPWARD VISIBILITY:** Made of tinted see-through material, the brim shields without compromising upward visibility, promoting clarity and safety

### SHADES

HPT2CNS130 – NECK SHADE

HPXR7SHADE – SUN BRIM

**ENHANCED SUN PROTECTION:** Shades reduce the risk of sunburn and heat-related discomfort by shielding wearer from the sun

## WELDING PROTECTION

SL T2 IS COMPATIBLE WITH THE WHAM30 AND WHAM1020MB WELDING HELMETS WHEN USING THE WHHADP

### WELDING ADAPTER

WHHADP

**EFFORTLESS ATTACHMENT:** Attach and detach welding helmet with ease, thanks to its adapter clips that ensure a snug and secure fit every time

## HYGIENIC SOLUTIONS

### REPLACEMENT PARTS

HPT2RSTRAP – CHIN STRAP

HPT2RPAD – SUSPENSION PADDING

**EFFORTLESS REPLACEMENT:** Enables the wearer to effortlessly replace a dirty or sweaty component, promoting cleanliness and comfort
