emergencies [puppulationhealth.com](http://puppulationhealth.com)

# What is The Kit?

Designed by a licensed veterinarian, The Uh-Oh Kit has tools and resources to help you navigate your next petastrophe with the guidance of your veterinarian.

It even includes sample situations and suggestions that you can talk through with your vet on your dog's next annual visit — before trouble arises.

## Information

Learn how to check and assess your dog's vital signs, what certain symptoms indicate, and what to do. Review suggested topics including dosages, directions, and warnings for each medicine with your veterinarian, and document their feedback on the same page.

## Medicine and more

Address allergies and gastrointestinal upset with over-the-counter medicines and products to help you take care of your dog's health.

- ✓ Expel quickly
- ✓ Quell queasiness

- ✓ Tackle gastrointestinal upset
- ✓ Readjust upset tummies

- ✓ Curb allergic reactions
- ✓ Manage common allergies

- Pill splitter
- Oral syringe
- Thermometer
- Latex-free gloves
- Alcohol wipes
- Lubricant jelly

## Convenience

Keep important documents, veterinary contact information, and essentials for unexpected emergencies organized and at the ready.

## Customization

Pop in your pup's photo, jot down their medical history on the quick reference card, and keep track of your vet's directions in the instruction booklet.

## Talk with your vet now

The Uh-Oh Kit is not a substitute for veterinary care. Use of the product and information should always be directed by your dog's veterinarian. For more information, visit [puppylationhealth.com/disclaimer](https://puppylationhealth.com/disclaimer)
