

ELEMENT | SCRAMBLED EGG

The Scrambled Egg has a constant curve extra wide outline shape, rocker is low through middle of board with late nose kick, with a very subtle single concave bottom contour starting from the nose and middle section, which feeds into a deep double concave and pronounced vee through the fin area. This board will paddle very well and flow easily through turns.

ELEMENT | WILDCAT

Wider outline plan shape with pulled in round tail, flat bottom rocker combined with a little nose and tail kick. Lots of volume throughout concentrated from centre point forward under chest area. Fuller rails, hard edge with single concave bottom running from nose into double concave through fin area and out tail.

Multi fin allows you to run between classic single fin or modern quad fin setup.

E L E M E N T | V I X E N

The Vixen Quad model has more volume than a standard shortboard with a fish style outline low rocker, single to double concave bottom combined with a subtle swallow tail, this gives the board more drive and speed through turns with a little extra release than a standard swallow. A super versatile board that paddles great generates speed easy and can be surfed in all conditions.

ELEMENT | R - J

A Modern take on the classic round nose fish design. Wider nose area with a parallel rail outline, single flyer with a pulled in swallow tail. The Slight single concave to subtle double bottom contours and low rocker throughout enables you to generate speed easily under the front foot plus makes for a great paddler, with a broad sweet spot.

Ride as a traditional tri fin, or go for an MR style 2+1 twin fin setup.
