

# Summer Sunflowers

**Santa Fe Sunset F1**

Santa Fe Sunset F1 is a stunning sunflower that is pollen-less. This 5 to 6 feet plant is multi-heading, and you can continue to cut the side branches up to a month. These single flowers are a burgundy red color that deepens at the center of the head.

**Black Russian**

65 – 70 days to maturity. Black Russian produces beautiful black sunflower seeds. The plant can grow to be 12 feet tall with 15 to 18-inch heads. Black Russian is gorgeous in the garden but also has multiple uses. The leaves can be cattle food, and the stem fiber can be used to make paper. The dried stems can also be a substitute for firewood.

**Autumn Beauty**

90 – 110 days to maturity. Autumn Beauty is an attractive sunflower with yellow, bronze, and purple shades. These 4 to 5-inch flowers are also known as common sunflower and annual sunflower. Autumn Beauty produces many long stems, ranging from 15 to 44 inch. This beautiful sunflower can also be fried or used as a garnish.

**Goldeneye F1**

68 days to maturity. Goldeneye F1 is a 100% pollen-less single flower and headed sunflower. This beautiful sunflower grows up to 4 feet and contains a single-headed, bright yellow petal, sunflower. The core starts as a pale green and matures into a light brown. Goldeneye F1 is a beauty that you can enjoy throughout the season.

**Dwarf Sunspot**

A fun variety that you will surely love! Dwarf Sunspot grows to be only 24 inches tall with a 12-inch flower. The heads are filled with edible seeds and will attract birds into your garden. Dwarf Sunspot can do reasonably well in a container with a substantial base. Plant this sunflower in a sunny location and watch it flower and bloom throughout the season.

**Mardi Gras Dwarf Blend**

70 days to maturity. Mardi Gras Dwarf Blend varies from pale yellow to dark red flowers. This blend is one that will look beautiful in the garden. The plants grow to be 2 to 3 feet tall, and each flower is about 5 inches when bloomed. This blend is ideal for cut flowers and will look gorgeous in your house as well as the garden.

**Canyon Sunset F1**

60 days to maturity from seeding. A lovely single-head sunflower, Canyon Sunset F1 is pollen-less and can grow up to 7 feet tall. With golden petals and a brown face, this sunflower is a beauty. The flower heads can reach 9 to 11 inches wide. Canyon Sunset does well in bouquets and can last up to a week.

**Star Chaser F1**

80 – 85 days to maturity. An 8-foot tall, classic green faced sunflower with yellow petals. Star Chaser F1 is an excellent choice for tall fence planting. This pollen-less sunflower is big enough to be called a giant but has the benefits of not shedding pollen onto your house as a cut flower.
