

## Pepper, Hungarian Mexican Sunset F1

AAS 2018 Edible Winner

Regional Winner: Southeast

Mexican Sunset Pepper F1 is a compact, high-heat Hungarian hot wax pepper well-suited for traditional gardens as well as urban and container gardening. Fruit sets early then prolifically throughout the summer bringing a variety of colors to the garden as the fruits mature. These conical pointed peppers produce a thick walled fruit that can be eaten at any stage and as the judges said, the fruits just continue to taste better the riper they get! Great eaten fresh, stuffed and baked, grilled or pickled.

*All-America Selections® was founded in 1932 and continues as the oldest independent testing organization in North America. Every year, new, never-before-sold in North America varieties are trialed in our Trial Grounds and professional horticulturists determine which varieties will be deemed winners based on their garden performance. AAS relies upon a public relations program to inform gardeners about AAS Winners that are announced three times each year.*
