

Tomato Chef's Choice Bicolor F1
AAS 2020 Edible Winner
Regional Winner – Heartland

The first bicolor tomato in the Chef's Choice series is here! Indeterminate plants produce large 7-8 ounce flattened beefsteak fruits with beautiful pinkish red internal stripes within a yellow flesh. The lovely stripes extend to the base of the outer fruit skins. These heirloom looking tomatoes are as sweet as they are beautiful with a better flavor and texture than the comparisons. Gardeners will enjoy earlier maturity and more uniform fruits that hold up all season long, producing well into September in the Heartland. As with all the colors in the Chef's Choice series, each plant can produce about 30 fruits per season.

All-America Selections® was founded in 1932 and continues as the oldest independent testing organization in North America. Every year, new, never-before-sold in North America varieties are trialed in our Trial Grounds and professional horticulturists determine which varieties will be deemed winners based on their garden performance. AAS relies upon a public relations program to inform gardeners about AAS Winners that are announced three times each year.
