

Oregano Cleopatra
AAS 2015 Edible Winner
Regional Winner (Northeast and West/Northwest)

Cleopatra is the third of the organic herbs introduced at this time. Pretty silver gray foliage makes this another herb that will be appreciated for its ornamental value. Unique from Greek and Italian oreganos, Cleopatra has a pepperminty and mildly spicy flavor perfect in Mediterranean dishes, soups and sauces. This compact, trailing plant produces a high yield of leaves that are wonderful as a dried spice when fresh isn't an option.

Bred by Terra Organics and Genesis Seeds

AAS®

Closest comparisons on market: Greek, Italian

All-America Selections® was founded in 1932 and continues as the oldest independent testing organization in North America. Every year, new, never-before-sold in North America varieties are trialed in our Trial Grounds and professional horticulturists determine which varieties will be deemed winners based on their garden performance. AAS relies upon a public relations program to inform gardeners about AAS Winners that are announced three times each year.
