

# Aquarius Alkaline Ionised Water System

Hydrogen & Antioxidant Water Purifier Filter

Transform your tap water into pure, clean, Alkaline Ionised Hydrogen Rich Water.  
It **Purifies** down to 0.01 micron.  
It **Alkalises**, creating **PERMANENT** 9.5pH Real Natural Alkaline water.  
It **Ionises** the water Naturally, not electrically.  
It **creates H2 Molecular Hydrogen** (Most Powerful Antioxidant known).

## Minerals

Minerals that are good for you

- The Aquarius System produces electricity-free, alkaline, ionised, hydrogen-rich water using a five-stage filtration process with ten different minerals.
- Transforms tap water into a health-boosting beverage, improving its quality at each filtration stage.
- Effectively removes harmful substances and replenishes water with essential minerals and trace elements.

## Micron Rating

- Micron rating indicates filter pore size; lower ratings mean finer filtration capable of removing smaller particles, including bacteria.
- For well water, a 1-micron filter effectively removes bacteria, though sediment may impact flow rate.
- The Aquarius System eliminates contaminants like chloramine, fluoride, and nitrates, providing purified water.

## Filters

Our advanced water filter system prioritizes your health, offering a range of benefits for clean, pure, and great-tasting water to meet your daily needs.

### Filter A:

Eliminates large particles like dirt, rust, and sediment, improving water clarity and preventing cloudiness.

### Filter B

German-engineered carbon rods with 20% powder and porous structure combine with U.S. MOX defluorinator to remove fluoride efficiently.

### Filter C

Targets small particles and chlorine while preserving essential minerals, also removes bacteria and microorganisms.

### 1 Micron Sediment Carbon Block Filter

Acts as a dual-purpose filter, removing both sediments like sand and rust, as well as chlorine and organic chemicals.

### Filter D

Ultrafiltration system that filters down to 0.01 microns, removing major contaminants including viruses and bacteria.

### Filter E

Adds alkaline minerals to water, creating antioxidant-rich alkaline water for improved cellular, bone, and organ health.

Ensure your water is pure and healthy by replacing cartridges every 12 months. Invest in your well-being with our reliable and efficient water filter system.

We work to provide better water for our customers in their homes, offices, restaurants, and industrial facilities around the world

# Installation is Simple.

There are 3 possible connections for Aquarius Alkaline Ionised Water System Installation

- Option A: Bench Top, the unit connects to your sink tap directly.
- Option B: Under Sink with a faucet tap.
- Option C: Under Sink with a 3 Way Mixer Tap.

**A**  
OPTION

**Option A: Bench Top**  
Bench Top with FREE sink tap diverter

**B**  
OPTION

**Option B: Under Sink**  
Under Sink Installation with FREE Faucet Tap - T Connector - Drain Saddle

**C**  
OPTION

**Option C: Under Sink**  
Under Sink Installation with 3 Way Mixer Tap

## 1 Appliance – Numerous Benefits

- The unit not only filters out contaminants like heavy metals but also alkalizes the water, adding antioxidants and hydrogen.
- Provides smooth, ionized water that restores the body's acid-alkaline balance and enriches it with essential minerals like calcium, magnesium, and potassium.
- The water produced has a beneficial low negative ORP, ranging from -300 to -600 mV, indicating strong antioxidant properties.

## Who Needs it

The Aquarius Alkaline Ionized Water System transcends typical water filters by not only purifying but also alkalizing and ionizing water without electricity or metal plates. Unique in adding powerful antioxidant H2 Molecular Hydrogen, it surpasses most market alternatives. Ideal for gyms, spas, and wellness centers, it enhances customer experience by offering clean, health-boosting water during workouts or relaxation.

## Specifications

Our Aquarius water system employs ten different minerals combined in five distinct filters to effectively purify & eliminate harmful chemicals, bacteria, and parasites, resulting in clear and refreshing alkaline water with numerous health benefits:

Product Size	40*10*37cm
Purified Water Flow	0.7L/min
Inlet/Outlet	1/2 "
Filtering Accuracy	0.01um
Work Pressure	0.2~0.4MPa
