

# 14ft Feather Flag Assembly

Please assemble flag kit within 30 days of purchase to comply with Warranty Guidelines.

# WHAT YOU'LL NEED

## Rods, Poles & Stake

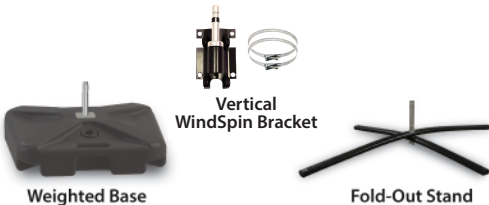

**NOTE:** Ground Stake (F) will be in the middle pocket of the carrying bag.

## 14ft Feather Flag

### Other Mounting Options

**RECOMMENDED**

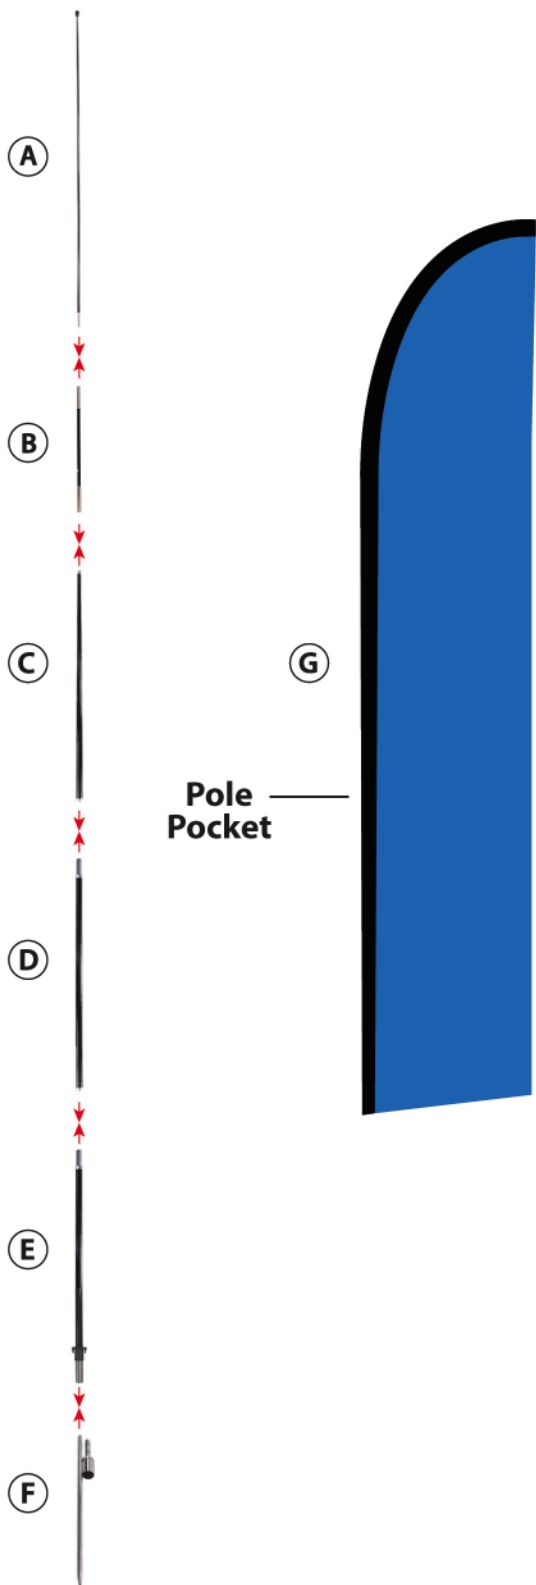

# 1

Assemble the first two tapered fiberglass rods (A and B) making sure they fit snugly together. Insert these 2 rods into the sleeve on the side of the flags.

# 2

Continue to add the next 3 metal rods (C, D, and E) until the top rod has been pushed all the way to the end of the sleeve.

*Tip: It is important to ensure the rods are positioned to the end of the sleeve.*

# FINAL STEP

## 3

Bring the bungee string through the grommets on the bottom of the sleeve. Bring it down and adjust the tension of the flag. Secure the metal spring clip on the bottom of the flag to the movable anchor point on the bottom rod. Tie string around the clip to secure the flag.

*Tip: If the flag is too loose or too tight, adjust the anchor point up or down accordingly.*
