# From Shalini Sinha

*Founder*

I want to share my story with you..

When I would travel to distant foreign lands, I would stroll for hours in search of that 'one perfect cup of tea'. When I couldn't find tea that quenched my thirst & soul, I was struck by an epiphany & decided to spread the tea culture to the world.

My approach was built on my passion for tea and the desire to bring forth innovation. To build a tea brand with a strong community of tea drinkers and to present something unique, authentic and pleasing has always been my aim.

The thirst to deliver the best and soul nourishing tea drinking experience led me to infuse exotic and unique tea blends, an innovation that was unheard and never tasted or experienced before.

If my story struck a chord with you, let's start a conversation over the perfect cup of infused tea..
