WHAT IS IT ABOUT RIDING A SKI-DOO THAT KEEPS YOU COMING BACK FOR MORE?

IS IT THE GOOSEBUMPS FROM THE ROAR OF THE ENGINE? THE FEELING OF YOUR HEART RACING THROUGH YOUR PARKA? THE MEMORIES MADE WITH YOUR FRIENDS? THE SMELL OF FRESH PINE AND GASOLINE? IT'S ALL THAT AND MORE.

THIS YEAR, GO BIGGER. RIDE FURTHER. FLY HIGHER. CHASE THE THRILL OF THE NEXT RUN. AND THE ONE AFTER THAT. YOU CAN'T FIGHT IT. YOU CAN'T REPLACE IT. THERE'S NO OTHER WAY TO DESCRIBE IT. WE CALL IT:

THAT *ski-doo* FEELING

For advertising purposes, some scenes depicted in this brochure include professional riders and racers executing maneuvers or performances under ideal and/or controlled conditions. Do not attempt any of these or any other risky maneuvers if they're beyond your level of riding ability, as well as your understanding and respect for the performance of your snowmobile. Always ride responsibly and safely. Always observe applicable local laws and regulations. Always wear the appropriate protective clothing, including a helmet. And remember, if you're going to drink, please don't ride. Because of its ongoing commitment to product quality and innovation, Bombardier Recreational Products Inc. (BRP) reserves the right, at any time, to discontinue or change specifications, prices, designs, features, models or equipment without incurring any obligation. Some models depicted herein may include optional equipment. Prices are based on Manufacturer Suggested Retail Prices. Dealer may sell for a different price. Taxes are not included. BRP is a proud member of the SSCC (Snowmobiling Safety Certification Committee), Machine Safety Standard, Operator Safety Training, Safe Trails, ISMA (International Snowmobile Manufacturers Association), National Snowmobile Foundation and Tread Lightly! Inc. By being a member of these important snowmobiling associations, we recognize and support their efforts in sharing the responsibility of promoting the growth of our sport. DEEP SNOW

FREERIDE

The most powerful 2-stroke turbo ever. With 180 horsepower all the way up to 8,000 feet, it leaves all competition behind.

Setting the bar for sending it, the reimagined Freeride produces higher vehicle velocity so riders can charge big hits with ultimate handling and landing capabilities. Welcome to the new standard for extreme deep-snow maneuvers.

**LIVE FREE.
GO BIG.**

ACCESSORIES

Add a second level of defense in the deep. Innovative LinQ cargo solutions for extra storage, filters to keep snow from piling up on your sled and bumpers to guard against the elements. That's twice the protection for twice the fun.

- 1 **Adventure Rear Bumper 16"**
860202754 • Orange Crush
860202340 • Black/Black
860202561 • Manta Green
860202402 • Neo Yellow
860202542 • Spartan Red
- 2 **Heavy-Duty Air Intake Filter Kit**
860202459
- 3 **LinQ Deep Snow Pro Lightweight Bag - 26 L**
860202620

E LINQ

The E LinQ accessory is now available for deep-snow sleds, and it arrives to make cord management easier. How? By combining your Ski-Doo DESS tether key and your heated accessory plug into one quick and easy magnetic connection. That's more freedom to ride in just one accessory.

tMOTION TECHNOLOGY

Modify your sled's rear suspension to suit your riding preferences with the help of the new tMotion X kit. The pivoting rear arm is designed to make it easier to initiate maneuvers with your Ski-Doo by increasing its agility and nimbleness. So when you lean into a carve, the rear suspension flexes to help your snowmobile to get on edge on a bank or in powder. Snowmobilers that prefer a more rigid ride may try the existing tMotion XT kit.

DID YOU KNOW?

THE COVER LIDS FROM OUR LINQ DEEP SNOW PRO BAG, LINQ SLIM WATERPROOF TUNNEL BAG AND LINQ DEEP SNOW PRO LIGHTWEIGHT BAG ARE INTERCHANGEABLE.

TRAIL

MXZ X-RS WITH COMPETITION PACKAGE

Race-inspired performance

Ready to race, ready to win. The MXZ sleds come packed with endless power, lightweight agility and high-capacity race-proven features to give their riders an edge over the competition. Exhilarating Rotax power gets your whole body racing, and motocross-like handling and agility up the ride quality.

INNOVATION

Powered by the most responsive 2-stroke engines in the industry, and features the 180 HP 850E-TEC Turbo R with Water Injection System - the most powerful 2-stroke engine on snow.

RENEGADE X-RS

A Renegade for every rider

When you own a Renegade, you can let your mind wander. Imagine long, comfortable rides on longer tracks with premium performance. Yet, it's real. Rack up miles on a lengthy adventure or crush the throttle on a thrilling ride – all in the same day. Whatever's around the next turn, the Renegade is ready for it.

CAN'T STOP, WON'T STOP

With its potent 900 ACE Turbo R engine and optimized wind protection, on the REV Gen5 platform, you can ride to your heart's content.

ACCESSORIES

Every mile matters. Whether you want to make a statement with your sled or add more function and convenience to it, Ski-Doo trail accessories deliver the goods.

- 1 **New** Trail LinQ Passenger Premium Heated Seat
860202536
- 2 LinQ 1 + 1 Rack
860202414
- 3 **New** Lateral Footplates

860202615
- 5 **New** Windshield Side Deflector Kit
860202437
- 6 LinQ Fuel Caddy –
4 Gallons
860202246
- 7 Full Body Skid Plate – Black
860202421
- 8 LinQ Roll-Top Bag – 40 L
715008110

DID YOU KNOW?

THE NEW ADJUSTABLE WINDSHIELD HAS BEEN REDESIGNED WITH A CLEANER LOOK AND IS NOW FULLY INJECTED WITH MOLDED-IN PIECES TO PROVIDE LESS VIBRATION AND GREATER VISIBILITY DURING A RIDE.

NEW LIGHTS SYSTEM

LED SIGNAL LIGHTS

It's the new, innovative way to communicate with your fellow riders: LED Signal Lights. With this convenient method, your hands stay on the handlebars where they should be. Fully visible in daylight and compatible with many models, the LED Signal Lights add confidence and control for any rider. The future of snowmobile communication is here – can you see it?

HANDS-ON COMMUNICATION HOW IT WORKS

Fully integrated into the handguard of the vehicle, the LED Signal Lights use white, amber and green to create four modes, each one designed to communicate its own message to oncoming riders.

With these lights up front, you can alert riders that more vehicles are coming, that you're the last in the group, that you are riding alone or that a hazardous situation looms. By keeping your hands on the handlebars where they belong, you stay in control of your vehicle and communicate clearly to create a safer riding environment for everyone.

3 COLORS, 4 MODES, 1 GIANT STEP

New LED Signal Lights
860202619

How to use it:

Mode 1:
White running light = default.

Mode 2:
Amber (left side only) = caution, riders behind me.

Mode 3:
Green (left side only) = beware, I'm the last sled in the group, or alone.

Mode 4:
Amber (both sides, flashing) = caution, there's a hazardous situation, =or beware, I've stopped.

SNOWMOBILING HAND SIGNALS

RESPONSIBLE RIDERS PRESERVE WINTER PLAYGROUNDS

The Ski-Doo responsible rider program is about being aware when you ride. Always consider safety, riding etiquette and the environment – whether you're on the trails or in the backcountry. Your efforts as a responsible rider help to preserve our sport for generations to come.

Learn more at ski-doo.com/responsible-rider

FIT YOUR SLED

Each **rider** may require adjustments based on their size or weight.

RIDE ADJUSTMENT:

■ Smaller or shorter riders.

■ Larger or taller riders.

BECOME ONE WITH YOUR SNOWMOBILE

Rider and machine, together in perfect harmony. That's the magic created when our REV platform and custom ergonomic accessories team up to give you the ability to custom fit your Ski-Doo. How? The better your sled fits your body, the more comfortable your rides will be. And the more comfortable you are, the longer you can stay out on the snow. What can you do? Match your handlebars to the size of your hands. Swap out your seat to alter your riding position. Ensure you have the correct rear spring preload and spring rate relative to your weight. These are all ways you can make your sled fit better to your body size, weight, strength and riding style to make you a better rider. And to keep you in your happy place – on your sled – for longer.

Riders with smaller or larger than average hands may require handlebar adjustments.

SEAT

Ultra-compact design.

Ergonomically correct positions.

HANDLEBAR

Smaller diameter for a lighter, easier grip.

Less hand fatigue.

SUSPENSION

Adjust to your weight for optimal performance.

FOOTWELL

Lateral plates and toeholds to better position your foot.

KNEE PADS

Comfort and impact absorption.

Better knee grip.

Adventure Unlocked

Our certified outfitters offer Ski-Doo experiences, guided adventures or rentals, providing access to some of the most legendary destinations in North America.

Plan your next adventure!

SKI-DOO

EXO[®] FLOAT ASSIST

Our proprietary ExoFloat System features an exoskeleton that is fully body mapped with hi-tech flotation panels that help assist you in case of a fall. It also has mesh panels at the bottom to evacuate water. For optimal performance, wear the Vasa jacket and pants together or wear the new Vasa + jacket alone.

KEY TECHNOLOGIES

SELF LEVELING

Strategically placed Exofloat panels help assist you in self leveling to the surface

EXIT ASSIST

Mesh drainage to ensure you are not weighed down by the water that can inhibit exit

FLOAT ASSIST

Allow garment to assist you to the surface and exit the water quickly to safety.

This is not a coast guard approved personal flotation device, this is a flotation assistance technology. Always make sure bodies of water are safe for riding and know currents that may affect ice thickness before adventuring.

ADVEX VS. OXYGEN?

So what makes this helmet different from the Oxygen? The Advex is built for a more active rider. It has the same incredible performance and protection thanks to the M-FORGE composite shell. However, it is more versatile as it excels in a variety of weather conditions with its superior humidity management system. Advex's Jet-style configuration also allows for easier face access, has an improved noise reduction system, and a sportier design.

YOU'RE NEXT, KID!

KEEP THE TRADITION ALIVE

Your family can now go all-in on riding: our Ski-Doo mini sleds are for kids! Built with children and teens in mind, you no longer have to leave the little ones behind. It's time to pass your passion down to the next generation.

THE MXZ GENERATION

The riders of the future have arrived, and the MXZ 120 and MXZ 200 are built just for them.

Heated grips come standard on these kids' models so their little hands stay warm and a little cold doesn't derail a day of fun. A reliable 4-stroke engine provides the perfect amount of power for those just getting started. And a safety tether cord puts parents' minds at ease.

The next trail tamers and powder shredders are hitting the snow, and these are the sleds for them!

ACCESSORY COLLECTION

The kids have a few new toys to play with! We have a complete lineup of accessories for mini sleds to make their first rides more enjoyable.

WE ARE FAMILY

CUTE KITS FOR YOUR KIDDOS

Little ones looking good! Outfit your munchkins with our kids' apparel for their next ride. Trusted designs, colors and the same high-quality outerwear make ours the best young riders' gear around - we kid you not.

KEEP HEAT IN AND COLD OUT

TEENS' PARTICLE JACKET

Give the kids a warm welcome to snowmobiling. This snowmobile jacket designed for teen riders sports an inner fleece liner and Thermal Loft insulation for extreme warmth and protection on the trail. Reflective striping helps keep your young rider visible.

UTILITY

SKANDIC SE

It goes where you need it

The Skandic SE's calling card? Its ability to take on tough tasks in remote wintery locations. A lightweight but strong platform and an articulated rail maximize the vehicle's off-trail traction. Add massive towing capacity to the mix and you've got a purebred workhorse that gallops past the finish line with grace and gumption.

TOUGH JOBS GET EASIER. GOOD TIMES GET BETTER.

Brute strength meets refined capability with Skandic. Massive towing capacity and large footprint make easy work of big jobs and great flotation to go wherever it is needed.

ACCESSORIES

All you need to make the tough jobs easier and the good times better.
