STYLISH SIMPLICITY

If there's one thing that Dutch interior design brand Table du Sud and design duo Studio Verbaan agree on, it's that less is more. Their collaboration collection consists of two dining tables made from a choice of

three types of oak and in two characteristic forms: a droplet or leaf-shaped silhouette. All tables are custom-made, so you can choose the perfect size, colour and shape to match your interior. From €2,045; tabledusud.nl
