

Home Security Camera

DS-3101

The Prolink Home Security Camera (DS-3101) is a Full HD 1080P Smart Wi-Fi Pan/Tilt/Zoom IP Camera. With its 120-degree wide-angle lens and the additional night vision feature (clear visibility of up to 10 meters), the device enables users to capture sharp and clear moving objects both day and night – the perfect indoor monitoring device.

Prolink Home Security Camera can also be easily set up and connected to the wireless network with the Prolink mEzee mobile app, giving users full control to the device settings anytime, anywhere. With the built-in microSD card slot, videos can also be stored, and played back easily. Alternatively, recording can be saved directly to the cloud storage. Other key features include motion sensor and push notifications, which alerts users when there is a motion event detected.

Key Features

Motion Detection
Select specific areas and receive instant push notifications when activities or movements are detected.

Pan/Tilt/Zoom
Adjust the view of the camera to designated angle or coverage. Easily control via the Prolink mEzee App either locally in the same network, or remotely.

Night Vision
IR LED distance at night vision up to 10m.

Wide Angle
Field of view of 120°.

Full HD
Full HD 1920 x 1080 resolution provides a clearer and brighter video.

Multiple Recording Methods
Options to record video footage on either Cloud Storage, microSD card or even on your mobile. View and playback recorded videos via Prolink mEzee mobile app.

*Recording can only be directed to one place at any given time, either micro SD Card or cloud

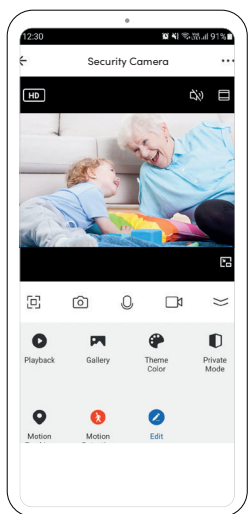

Motion Tracking
Camera will track when it detects moving object.

Specifications
