The **Prolink GT-22003 20W 2-port GaN PD Charger** is a highly efficient charger that combines the latest GaN technology alongside our very own IntelliSense feature. Not only does it deliver fast charging power but it also comes in a tiny compact size that allows you to carry around hassle-free. IntelliSense feature in the charger allows you to charge devices with varying power requirements effectively. It automatically detects and distributes the right amount of charging power your device requires, protecting them from over-voltage, over-current, over-temperature, overload, and even short circuits.

Key Features

- GaN technology ensures a smaller and lighter charger with higher charging efficiency
- Experience 4X faster charging speed with Qualcomm® Quick Charge™ 3.0 technology
- USB Type-C PD (Power Delivery) port offers rapid charging speed for all compatible USB-C devices
- IntelliSense technology detects and automatically distributes the right amount of charging current for your connected device
- Deliver up to 20W total charging output
- Advanced Protection (Over-voltage, over-current, over-temperature, overload and short circuit protection)
- Dual ports for simultaneous charging of up to 2 devices
- Worldwide Input Voltage AC 100-240V 50/60Hz
