

Classic Wired Keyboard

PKCS-1008

Prolink PKCS-1008 is a classic, full-sized keyboard with sleek and slim design. Equipped with high quality membrane key switches, enjoy a precise and effortless typing session for your daily usage.

This functional keyboard also comes with foldable keyboard stands; adjust the keyboard to your preferred typing posture and type away in comfort. Get a peace of mind with the durable keyboard's spill-resistant feature against accidental spills.

Key Features

PLUG & PLAY

Simply remove from the packaging, plug directly into the USB port and start typing away.

FULL-SIZED KEYBOARD

A standard full-sized layout with number pad for easy data entry and calculation.

ADJUSTABLE STAND

Adjust keyboard to your preferred height and not compromise your standing posture with the foldable keyboard stands.

SPILL RESISTANT

Extra protection against fluid spills especially during a hectic work day with the spill-resistant feature.

ACCURATE TYPING

High quality membrane key switches for a comfortable and effortless typing experience even after long hours of usage.
