	Green	Blinking	2G/3G Internet Service is available
	Blue	On	4G/LTE network connected
	Blue	Blinking	4G/LTE Internet Service is available
Mobile Signal 🛛	Green	On	4 LED to indicate the signal strength

3 Hardware Installation

STEP 1 Hardware Installation STEP 2 Web Configuration

Step 1: Hardware Installation.

 Insert the SIM Card into the slot per the direction shown in the bottom case of the PRN3006L

Notes:

- Usage of Micro/Nano-SIM card with unofficial adapter is not recommended
- Inserting SIM Card while the PRN3006L is powered on is not recommended

3 Hardware Installation

- [Optional only applicable for PRN3006L with Voice] Connect the PRN3006L's telephone port to the telephone
- 3. Connect the power adapter jack over to the PRN3006L's DC Input and switch ON
- 4. Connect client to the 4G LTE Wireless Router through wired or wireless.
 - a) For wired connection: Connect the PC / Laptop over to the PRN3006L's LAN Port
 - b) For wireless connection: Connect the Wi-Fi client over to the PRN3006L's default SSID (Prolink_PRN3006L_xxxxx) with default password (printed on the sticker)

4 Web-based Configuration

- 4.1 Ensure that your device (PC, Laptop, or Mobile device) is connected to the PRN3006L
- 4.2 Launch Internet browser and enter https://192.168.1.1 onto the address bar

Note:

Due to local *https* with self-signed SSL certificate, the security warning message will be prompted when accessing https://192.168.1.1. Please click on "Advanced" then continue with "Proceed to 192.168.1.1 (unsafe)"

4 Web-based Configuration

4.3 Key in the login account and password (default username is "admin", password is printed on the device sticker)

 By default the APN, Dial Number, Username, Password and Authentication is automatically configured to match with your SIM Operator.

Tips:

- 1. In the event that the Internet connection is not available even after inserting SIM Card, configure the device as follows:
 - Step 1: Contact your Service Provider / Operator for APN setting information required for manual APN setting through the Web Configuration
 - Step 2: Launch Internet browser and go to https://192.168.1.1
 - Step 3: Click on WAN and navigate to APN Setting to key in all the information provided by the Service Provider / Operator
- 2. It is not recommended to insert SIM Card while PRN3006L is powered on
- 3. Note that Voice Support is only applicable to PRN3006L with Voice
- For PRN3006L with Voice, VoLTE or Call-Switch function is subject to the subscription plan of the respective SIM Card

 Port Telepon

 (Opsional – hanya tersedia pada PRN3006L dengan suara)

3 Instalasi perangkat keras

STEP 1 Hardware Installation STEP 2 Web Configuration

Langkah 1: Instalasi Perangkat Keras

 Masukan Kartu SIM ke dalam slot SIM sesuai arah yang di tunjukan yang terdapat pada bagian bawah casing PRN3006L

Catatan:

- Gunakan kartu Micro/Nano-SIM card menggunakan adapter yang tidak resmi tidak di saranka
- Masukan Kartu SIM pada saat PRN3006L sedang menyala tidak di sarankan

3 Instalasi perangkat keras

- [Opsional Hanya dapat berfungsi untuk PRN3006L dengan Suara] Hubungkan Port telephone PRN3006L ke telepone
- 3. Hubungkan Jack power adaptor ke Input DC PRN3006L dan nyalakan
- 4. Hubungkan perangkat lain ke 4G LTE Wireless Router melalui jalur kabel atau nirkabel
 - a) Untuk Koneksi menggunakan kabel: Hubungkan PC / Laptop melalui Port LAN PRN3006L
 - b) Untuk koneksi nirkabel: Hubungkan klien Wi-Fi ke default PRN3006L SSID (Prolink_PRN3006L_xxxxx) dengan kata sandi default (tercetak di stiker)

4 Konfigurasi Berbasis Web

- 4.1 Pastikan perangkat (PC, Laptop, atau perangkat Mobile) terhubung ke PRN3006L
- 4.2 Lalankan peramban internet (Internet browser) dan masukkan https://192.168.1.1 pada kolom alamat

Nota:

Karena https lokal dengan sertifikat SSL yang ditandatangani sendiri, saat mengakses https://192.168.1.1, file pesan peringatan keamanan berikut akan muncul, klik "Advanced", lalu lanjutkan untuk mengklik "Proceed to 192.168.1.1 (unsafe)"

4 Konfigurasi Berbasis Web

4.3 Masukkan akun (User Name) pada kolom login dan kata sandi (akun / kata sandi Sandar adalah admin / password)

 Secara default, APN, Nomor Panggil, Nama Pengguna, Sandi, dan Otentikasi secara otomatis dikonfigurasikan agar sesuai dengan Operator SIM Anda

Tips:

- 1. Jika koneksi Internet tidak tersedia bahkan setelah memasukkan Kartu SIM, konfigurasikan perangkat sebagai berikut:
 - Langkah 1: Hubungi Penyedia Layanan / Operator Anda untuk informasi pengaturan APN yang diperlukan untuk APN manual pengaturan melalui Konfigurasi Web
 - Langkah 2: Luncurkan browser Internet dan buka https://192.168.1.1
 - Langkah 3: Klik WAN dan arahkan ke Pengaturan APN untuk memasukkan semua informasi yang disediakan oleh Layanan Penyedia / Operator
- 2. Tidak disarankan untuk memasukkan Kartu SIM saat PRN3006L dihidupkan
- 3. Perhatikan bahwa Dukungan Suara hanya berlaku untuk PRN3006L dengan Suara
- 4. Untuk PRN3006L dengan fungsi Suara, VoLTE, atau Call-Switch tunduk pada rencana berlangganan masing-masing Kartu SIM
