 CARE

Let's Fly has soft suspension of the rear wheels for smooth run.

Let's Fly is one of the leading rollators in the world today in term of design and functionality. This outdoor rollator is light and steady and its weight is only 6.8 kg. Width only 57 cm. It is simple to fold and can stand alone when folded. Let's Fly is made of cast aluminum and its design is comparable with the most extremely designed products. It has large elegant front wheels that makes it easier to cross curbs. Soft suspension of the rear wheels gives a smooth and soft run. Let's Fly has ergonomically designed rubber handles, adjustable from 78.5 to 92 cm to fit different body lengths. Of course it has an effective brake and parking brake that are easy to operate. Accessories are also available for Let's Fly such as bag, backrest band, crutch holder, foot lever, bag holder and lamps.

When Let's Fly is folded the width is only 20 cm and it is easy to bring with you in a car or a bus.
