**WELCOME**

Hi Everyone!

I am so grateful that you are sharing in this glorious fight with me in support of the Cancer Schmancer Movement. We're going to have so much fun, love and laughter, we're making great food and art!

This night will directly help to fund our programs. The Movement is a revolution of radical non-profit thinking trying to stop cancer with lifestyle changes, alternative early detection, early therapy, clean your home and fresh your program.

I had this goal for me, I got cancer and I want to talk about it, so I'm taking My Cancer Schmancer machine a turn, mass fighting machine and other support machines in the fight against the disease. No more cancer in the home! Let's do it. Let's give our best working people with a pure and athletic approach toward making a difference.

We are entering through a new world, that of causation and prevention, and we get cancer in the first place. That's the key to cure! We empower people, transform patients into medical consumers, and point the way back to YOU by teaching you how to connect EVERYTHING you do, eat, use, clean and garden with a potential life-saving benefit to your immune system.

As we move into the 21st Century, we must be up to all the technology and equipment that industrial revolution and the 20th Century provided us with. We need the innovation of fresh, 21st Century medical equipment. We need the innovation of fresh, 21st Century medical equipment in everything we're using to live. We're going to have great fun and love, powered through our shared efforts, we are a population get richer, and the more of what's considered acceptable for good health is better and faster.

Founder & Victory, Cancer Schmancer Movement
