Page 2

1. Find an open, flat area in which to work. Carefully remove all components from the box and remove banding with a utility knife. Check the parts list to verify package contents.
2. Arrange the end ladders on the floor so that the bottle support pieces face one another. Align the large gaps on each end ladder. The end with the larger gap is the top of your rack. Attach a standard column connector to the top and bottom of your rack using the screws provided. Make sure the connectors are flush with the top and bottom of your rack. (figure 1)

* Minimize the risk of splitting your ladders by drilling a 1/16" pilot hole before driving the wood screws. For best results, drive the screw most of the way in with your drill, then finish tightening by hand.

-
3. Insert the middle ladders and finish securing the top & bottom connectors using the screws provided. (figure 2)

KITCHEN RACKS ASSEMBLY GUIDE

***NOTE:** If you purchased a 48 Bottle Kitchen Rack, your unit will come with 1 extra standard connector. Attach connector to the back of the rack with a cordless drill or screwdriver.

IMPORTANT!
Measurements are from the bottom of the rack to the top of the connector

25 11/16"

-
4. Flip rack over. Attach the remaining connectors to the top and bottom of the rack using the provided screws. (figure 3)

Cover the screw holes on the front connectors using the provided adhesive screw covers.

5. Stand the rack up and insert the solid top into place on top of the rack. The bottom side of the solid top will have wooden cleats in place to ensure proper alignment of the top. (figure 4)

Secure the solid top by adding wood glue to the tops of each vertical riser. Hold until glue is dry.

4 ATTACH SOLID
TOP

That's it! Fill this beautiful rack with your favorite wines and enjoy! Pair with other rack styles for an ultimate cellar storage look.
