

WHO WE ARE

Since 1976, L'Occitane en Provence has been imagining, producing and selling beauty, skincare and wellbeing products with an intention to share nature's wonders with the world. We believe that by reviving the strength of all living things, we can help seeds bloom again and reconcile humans with nature.

We are Cultivators of Change.

Every year, we plant powerful ingredients, which are in perfect symbiosis with their ecosystems. We turn to Mother Earth and marvel at her in bloom. We explore her treasures and investigate our own methods until new breakthroughs are revealed. We craft them into unexpected memories. We team up with people at a local level because we believe that any act can make a difference, no matter how big or small.
