HOME OF

Iconic Gourmet Food Wholesalers to open in O'Connor

A West Australian family, the Yukichs, are building on the success of their Cash & Carry; European Foods Marketplace in Osborne Park, by bringing their offering of quality ingredients for professional and home chefs, to South Street, O'Connor. And much to the delight of cheese worshippers everywhere, the Marketplace, opening at 334 South Street in February 2022, will also be home to the second Cheese Cathedral.

The O'Connor Cheese Cathedral will be over 40 square metres of local, Australian and imported cheeses – over 350 varieties in total. It will also house WA's very best small goods and antipasti. With an incumbent Cheese specialist, the Cheese Cathedral will be able to offer in depth knowledge of the range and its provenance.

The European Foods Marketplaces in Osborne Park and O'Connor are the latest iteration in the development of the iconic specialty food distributors, which started under the Re family over 60 years ago. Since being acquired by the Yukich family, this offer has expanded to include the Marketplace Cash & Carry's, which showcase of their range of specialty, unique and gourmet products that chefs over generations have trusted.

The O'Connor store will build on this success with passionate local staff, serving local businesses – and will ensure that the surrounding food service industry have more choice and convenience than ever. Food service customers will also benefit from trade discounts, enabling more efficiency and flexibility in menus and offers to their customers. For the public, membership is offered – and can be accessed in store.

The Marketplace O'Connor will also be the home of Fremantle Coffee Roasters, where coffee aficionados can taste the various blends available in the range, for both business and home use. Although not a serving café, the coffee knowledge and advice on site will share their passion for coffee.
