

# *Cristallerie Locatelli*

*di Giuseppe Locatelli & C. snc*

# *Our Company*

Our company has been located since 1940 in the historic center of Busto Arsizio, an affluent city famous for its textile. It is situated in a strategic position between Malpensa airport and Milan, and it is now in the fourth generation of the founding family.

Leader in selection and trade of the most renowned Brands related to the world of the house, of the art of the table, of the houseware, objects and decorative lighting

Always attentive to the needs of its customers, offering a wide range of products and seeking for each product category treated, the highest quality and the best guarantees.

Reference for all people sensitive to the charm of beauty, design, quality and from tradition.

In the last decade, keeping up with the radical change in the market, it has shaped and organized itself to reach increasingly international and distant customers and markets.

It has created two websites today as a point of reference both in the e-commerce world and in the one dedicated to projects and contracts related to LUXURY.

The logo for Locatelli House Store features the word "Locatelli" in a large, black, serif font with a small asterisk above the final "i". Below it, the words "House Store" are written in a smaller, black, sans-serif font.

To support and develop this project in 2020 in collaboration with companies related to complementary sectors of the textile world was born

**M.I.A. (Milano Interior Art)**

with the opening of a showroom in the splendid location of the villa in Via Ariosto 3 in Milan.

Here beauty, refinement, experience capable of fully supporting the needs of customers and the most meticulous professionals come together with the presence of qualified personnel for each product sector.

Thanks to this change, many projects have been carried out abroad in markets such as Russia, China, the United Arab Emirates, etc., experiences that have contributed to increasing and improving our ability to interface with new demands and needs.

In recent years there have also been many collaborations with manufacturing companies for product customization linked to projects where customizations were requested from part of our customers.
