Luxury Tea Scented Candles

Our Candles

New this season and eagerly awaited, we're excited to bring you this soothing collection of luxury tea scented candles.

The perfect selection of alluring aromas inspired by our most popular award-winning single origin teas.

From the bright and fresh notes of Ceremonial Grade Matcha to the delicately refreshing tones of Natural Jasmine and the rich and warm scent of Cinnamon Spiced Chai.

These perfectly balanced tea scented candles are designed to welcome a sense of calm serenity to your space and a perfect gift for tea lovers alike.

**Proudly Made &
Poured in the UK**

**100% Natural
Wax**

**Reusable Metal / Glass
Container**

Supreme Classic Earl Grey

According to legend, Earl Grey was invented when some black tea was accidentally stored in a barrel with Bergamot oranges. Charles Grey received the shipment and the rest is history.

Now Earl Grey is one of the most popular tea varieties out there.

Embodied by the characterfully rich and crisp scent of Bergamot that Earl Grey is famed for, this scent transports you to the first sip of the iconically fragrant tea.

Scent Inspiration

The aromatic nuances of black tea leaves, accompanied by citrusy Bergamot oils are layered with the warmth of black pepper and golden ginger, finished with base notes of cedar wood, amber and musk.

Luxury First Flush Darjeeling

Walking through Darjeeling, you're hit with the heady aromas of nature in the summertime. The tea gardens, perched on the hillside, are brimming with life and our First Flush Darjeeling Candle will make you feel surrounded by it all.

This delicately muscatel scent boasts a delightful mix of early summer tea aromas with refreshing sweet notes, the perfect combination to be enjoyed any time of day.

Scent Inspiration

A lightly floral heart infuses neroli petals and orange blossoms, accompanying the refreshing muscatel aroma that Darjeeling Indian tea is famed for.

Light and floral with a hint of sweetness, this alluring scent is combined with gently warming cedar and amber base notes to finish.

Authentic Cinnamon Spiced Chai

The flavours and aroma of Chai are the perfect partners for a dinner with friends. Rich in antioxidants, Chai was first enjoyed by Indian royals who loved its calming, healing properties.

Exotic scents of cloves, nutmeg and star anise create a cosy, inviting environment that can be enjoyed any time, but we particularly love burning this scent on a chilly winter's night.

Scent Inspiration

This wonderfully rich and exotically spiced alluring aroma features scents of ground cinnamon, clove, nutmeg and star anise with invigorating hints of fresh cardamom and light citrus.

Comforting delicate floral tones in the heart rest on a full bodied base of woods, cedar, amber and earthy notes of patchouli.

Natural Refreshing Jasmine

Our own Jasmine tea is grown in the capital of Fujian. Bathed in sunshine and rainfall, the tea leaves flourish in the subtropical climate. Burning our matching Jasmine scented candle will take your relaxation to the next level.

Delicate floral aromas will calm you, making you feel as though you're sunbathing in a meadow in spring. Ideal for soaking in the bath or relaxing with a good book.

Scent Inspiration

This refreshing infusion opens with watery fruity notes of green melon and pear lightly spiced with cinnamon and clove.

The stunning subtle sweetness beautifully balances the spicy tones that continue through to the heart, which is finished with summery base notes of fragrant Jasmine petals, violet and leafy tea accords.

Invigorating Ceremonial Matcha

For centuries, the Matcha tea ceremony has been an important ritual. Originating in China, the ceremony took off in the 12th century when a Buddhist monk brought the tea to Japan.

The monks found that a cup of beautifully prepared Matcha tea helped focus their minds, taking them to a place of calm alertness.

The scent of our Matcha candle will awaken the same refreshing aromas the monks enjoyed as they prepared their tea, crushing their dried leaves into powders.

Scent Inspiration

This bright and fresh spring grass scent offers all the goodness of the early spring flush. Smooth notes of cherry blossom and leafy green tea aldehydes impart a refreshing aroma with a hint of fruitiness.

A base of smooth woods and gentle musk delicately warms this tranquil scent.

Glass Jar Tea Scented Candles

Supreme Earl Grey

Glass Container 220g (30cl)
Burn Time: 40hrs
