

A-STAR MUSIC

Jingle Bell Stick

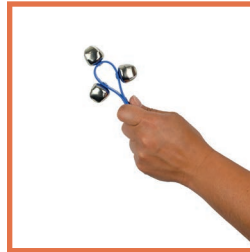

Educational products and accessories are our passion at A-Star Music. With our huge range of handheld percussion and early years products, our mission is to bring affordable entertainment to classrooms, workshops and households.

A-STAR MUSIC

How to Play

- 1 Hold the bell stick in your non-dominant hand and wrap your fingers around the handle.

- 2 Strike the bells with your other hand as quickly or slowly as you want. You can also shake the bells in one hand like a rattle.

- 3 Hold the bells upside down and use your other hand on top for a more controlled sound.

Did you Know?

Bells were used in Ancient Egypt and were commonly suspended from horses, mules and camels to signal to pedestrians.

Traditionally made of sheet metal bent into a spherical shape with a small ball bearing placed inside.

Bells were one of the first instruments played in space. In 1965 astronauts smuggled bells and a harmonica onto their spacecraft.
