Hand Bells

Educational products and accessories are our passion at A-Star Music. With our huge range of handheld percussion and early years products, our mission is to bring affordable entertainment to classrooms, workshops and households.

A-STAR MUSIC

How to Play

- 1 Pick up two bells and hold them in front of you with the bells facing straight up.

- 2 Ring one bell by moving it forward and away from your body, then ring the next bell.

- 3 You can play on your own by picking up each bell or form a handbell choir with your classmates.

Did you Know?

Tuned hand bells were originally used by church bell ringers to rehearse outside of the tower where they would not disturb residents.

Traditional tuned hand bells were first produced in Wiltshire, England in the 18th century.

Today hand bell ringing is a competitive musical discipline, with handbell ringers performing and competing in groups.
