# Precautions

Careful maintenance and protection extends the service life of the product and reduces faults.

**AVOID HEAT, DAMP OR DIRECT SUNLIGHT** - Do not expose the product to excessive dust or vibrations, extreme cold or heat (such as in direct sunlight, near a heater or in a car during the day).

**DO NOT USE NEAR TV OR RADIO** - Do not use this product in the vicinity of a TV, radio, stereo equipment, mobile phone, or other electric devices. Otherwise, this product or the other device may generate noise.

**DO NOT USE CHEMICALS FOR CLEANING** - When cleaning the product, use a soft and dry (or slightly damp) cloth. Do not use paint thinners, solvents, alcohol, cleaning fluids, or chemical-impregnated wiping cloths.

**DO NOT SHAKE & AVOID COLLISION** - Do not place the product in an unstable position or a location with excessive vibration, where it might accidentally fall over and cause injury.

Use only the supplied or the specified AC adapter. Do not use the AC adapter for other devices. When not in use, please turn off the power supply. When not in use for a long time, pull out the power cord and store it securely.

## Smoke, odour, overheating

When the product smokes, smells or overheats, there is a danger of fire and electric shock when it is used continually. In case of the above situation, the following operations should be performed immediately: 1. Turn off the power supply 2. Pull the plug out of the power outlet. 3. Contact your dealer.

## Power cable

The improper use of the power cable may cause fire or electric shock. The following precautions must be observed:

- The special power cord designated for this product must be used.
- The AC power supply with output voltage within the rated voltage range for household use must be used.
- Do not overload power sockets and extension lines.
- Do not place or heat heavy objects on power cables.
- Do not attempt to alter or bend the power cable too much.
- Do not twist or pull the power cable.
- If the power cable or plug is damaged, please replace with the same type of power cable.
- Do not touch the power cord and plug with wet hands, otherwise there is a danger of electric shock.
- Do not use the power cable around water. Water is a danger of causing fire and electric shock.
- Never place vases or any other container with water on this product.
- Do not allow minors to unplug and touch power cable or connection boards.
- Never put the power cable near the oven or other heat source.
- Do not pull on the cable when pulling out of the power socket. The main body of the plug must be grasped.
- Make sure the power supply is off before connecting or disconnecting it.
- When thunderstorms occur or before travelling or other long-term departure, disconnect the power cable.

## Water and foreign bodies

Water, other liquids and materials (metal sheets, etc.) entering this product are in danger of causing fire and electric shock. In case of the above situation, the following operations shall be performed immediately: 1. Turn off the power supply. 2. Pull the plug out of the power outlet. 3. Contact your dealer.

## Disassembly and modification

This product contains no user-serviceable parts. Do not attempt to disassemble the internal parts or modify them in any way. This could cause a risk of electric shock, scald or other personal injury.

## Location

- Do not place the product in an unstable position or a location with excessive vibration, where it might accidentally fall over and cause injury.
- Before moving the product, remove all connected cables, to prevent damage to the cables or injury to anyone who might trip over them.
- If the product falls or is damaged by strong impact, it will be in danger of causing fire and electric shock. In case of the above situation, the following operations shall be performed immediately: 1. Turn off the power supply. 2. Pull the plug out of the power outlet. 3. Contact your dealer.

## Connections

- Be sure to set the volumes of all devices at their minimum levels and gradually raise the volume controls while playing the product to set the desired listening level. Excessive volume can damage your hearing.
- The connections on the module can only be connected to the designated equipment and devices. Connecting non-designated equipment or devices is dangerous and could cause fire or electric shocks.

## Handling

- Do not rest your weight on, or place heavy objects on the product, and do not use excessive force on the buttons, switches or connectors.
- Do not use the product or headphones for a long period of time at a high or uncomfortable volume level, since this can cause permanent hearing loss. If you experience any hearing loss or ringing in the ears, consult a physician.
- Remove the power plug from the AC outlet before cleaning the unit. Failure to observe this may cause electric shocks.
