Deca 300mg/mL (Nandrolone Decanoate) Deca Durabolin is one of the most commonly used anabolic steroids among performance enhancing athletes. It is well known for being a tremendously beneficial off-season mass steroid, but it's also a favorite in many athletic circles for its therapeutic benefits. Fact: 300 mg - 400 mg/week of Deca is the most anyone should ever need and going beyond that is a system of diminishing returns. Great gains can be made on 200-300 mg/week! Fiction: Deca will make you retain a ton of water. Fact: With a good diet and moderate dosage it won't make you bloated, it's still 90% diet! Most bodybuilders back in ... Insulin is a hormone produced in the pancreas by the islets of

Langerhans. This hormone regulates the amount of glucose in the blood. The lack of insulin causes a form of diabetes.

weeks 1-11 deca 300mg/week My question is should i bump up the dose of deca to 400mg/week for 11 weeks instead of 300mg will i gain more from 400mg/week thanks Luke 25-Sep-2004, 07:10 PM #2. mikebzt. View Profile View Forum Posts View Articles Pro Bodybuilder Join Date Nov 2003 Location NY/NJ Posts 758 ... Off-season Deca Durabolin doses will normally fall in the 300-400mg per week range. Due to the steroid's long half-life one injection per week could get the job done. However, most will find two small equal size injections per week that total the desired weekly dose to be most efficient. This will cut down the total injection volume.

Currently living in pain 24/7. It hurts to be awake. Wearing a maternity belt to try to hold my insides in. Back feels like it's broken. That's the moany bit. [pop over here](#)

Want to try a new compound other than orals I have tried, so I chose deca but only want to use a low dose but is 300mg to low or should I double it to higher than the test? cheers. Share this post. Link to post Share on other sites. Sambuca 460 Sambuca 460 Hi; Platinum Member ...

The dosage of 300-400 mgs per week is good for a beginner. Make sure to be using aromasin from the first day of the cycle at 10 mgs EOD in order to ensure that estrogen related side effects won't occur. After doing this cycle for 8-10 weeks, wait a week, and start with the PCT - nolvadex, clomid, HCGenerate ES and Ostarine MK-2866.

I started working out because I was tired of the way I looked, or getting comments that I was too skinny at 123lbs. I am now sitting at a good 170lbs literally in a years time. It took a lot of time, consistency, and dedication after long hours at work I am aiming to be 200-220 as my long term goal!

When it comes to regulating how the body functions, there are few substances more important than hormones. They are known as  chemical messengers  that travel throughout the body initiating and controlling pretty much everything that goes on. Insulin controls blood sugar levels and stores glucose so that we have sufficient energy levels when we need them. Thyroid is needed by every cell in the body in order to function properly. Everyone s favorite, serotonin, is what makes us feel good.

For a cutting cycle, even 250-300mg/week of Deca is fine. You will gain quality muscle tissue without the risk of gaining too much water during the cycle. For athletic or therapeutic use, even 200mg/week of Deca will suffice. This will lubricate your creaky joints bringing them to life and greatly improving your on-field performance. Suffering from ED is common. In fact, nearly half of men over the age of 40 experience erectile dysfunction. You don't need to suffer. Call New Life Rejuvenation to begin living the life you desire. Deca Durabolin dosage should be dependent upon your experience. Men who are new to deca should start at 300-400mg per week, while experienced users can safely dose up to 600mg. Bodybuilders who are really experienced with AAS will dose over 1,000mg per week, but this certainly isn't recommended for the average user.

Having said that, it still is a very powerful steroid and some sides will be unavoidable. Estrogenic side effects: Deca Durabolin aromatizes very weakly, at just 20% of that of Testosterone. However, it has a ... My resolution in my next year of Testosterone is not be so quiet or accepting (saying 'its okay" because it's really not) when someone continues to misgender me or use the wrong name.
