

U-CHILL™ | U-LINE

The Perfect Serving Companion

U-Chill™ is an in-counter cooling cylinder that maintains the temperature of chilled beverages while you enjoy them. Perfect for wine, champagne, craft beer, carafes, bottled water, spirits, and other beverages.

Integrates beautifully in homes, hotels, restaurant lounges, suites, bars, serving stations, kitchens, bathrooms, entertainment areas, and more. U-Chill™ installs in minutes and is maintenance free.

Cool to the Last Drop

You have selected your beverage with great care. You have stored it at optimal temperature. What happens after you pour the first glass? Simply setting on the countertop results in a warm second and third glass. Placing in an ice bucket cools down too quickly, compromising flavor.

U-Chill™ allows you to elevate your enjoyment by maintaining the temperature of your bottle within 2°F - 4°F.

Install Virtually Anywhere

U-Chill™ easily integrates into any surface and can be incorporated into residential and commercial settings - from bars, breakfast nooks, kitchen islands, sofas, bathrooms, bedrooms, all that's needed is a 6" opening and an electrical outlet.

The opportunities for U-Chill™ are limited only by your imagination.

Luxury Spa

Dining Table

Endless Possibilities

The beverage may change, but the experience remains. U-Chill™ allows you to enjoy your beverage the way it was designed to be enjoyed, from the first glass to the last. U-Chill™ is perfect for any cool beverage and accommodates many bottle shapes and sizes, up to 3 7/8" in diameter.
