

First launched in the early 90's, founders Toni and Nikki combined their names and their talents to form Tonic. More than 30 years later, their vision for truly exceptional Australian design continues to grow.

Each Tonic piece is crafted with the values of beauty, wellbeing, and the sheer delight of giving in mind. Tonic's collection focuses on luxurious fabrics, high quality materials and thoughtfully designed details.

Tonic's ECO Tonic initiative considers the social and environmental impact of each step taken in bringing the Tonic collection to you.
