Paddock Box

This Box will hold all the Paddock Tiles and also both of the Casino Game Tiles.

1. Capacity-4 Paddock Tiles
2. Capacity-2 / -3 Paddock Tiles

Card Boxes

These two boxes will hold all cards of the game. In the above picture 100 microns sleeves were used. “Plot Twists” and “Specialists” cards are placed in the right box, while everything else will fit in the left box.

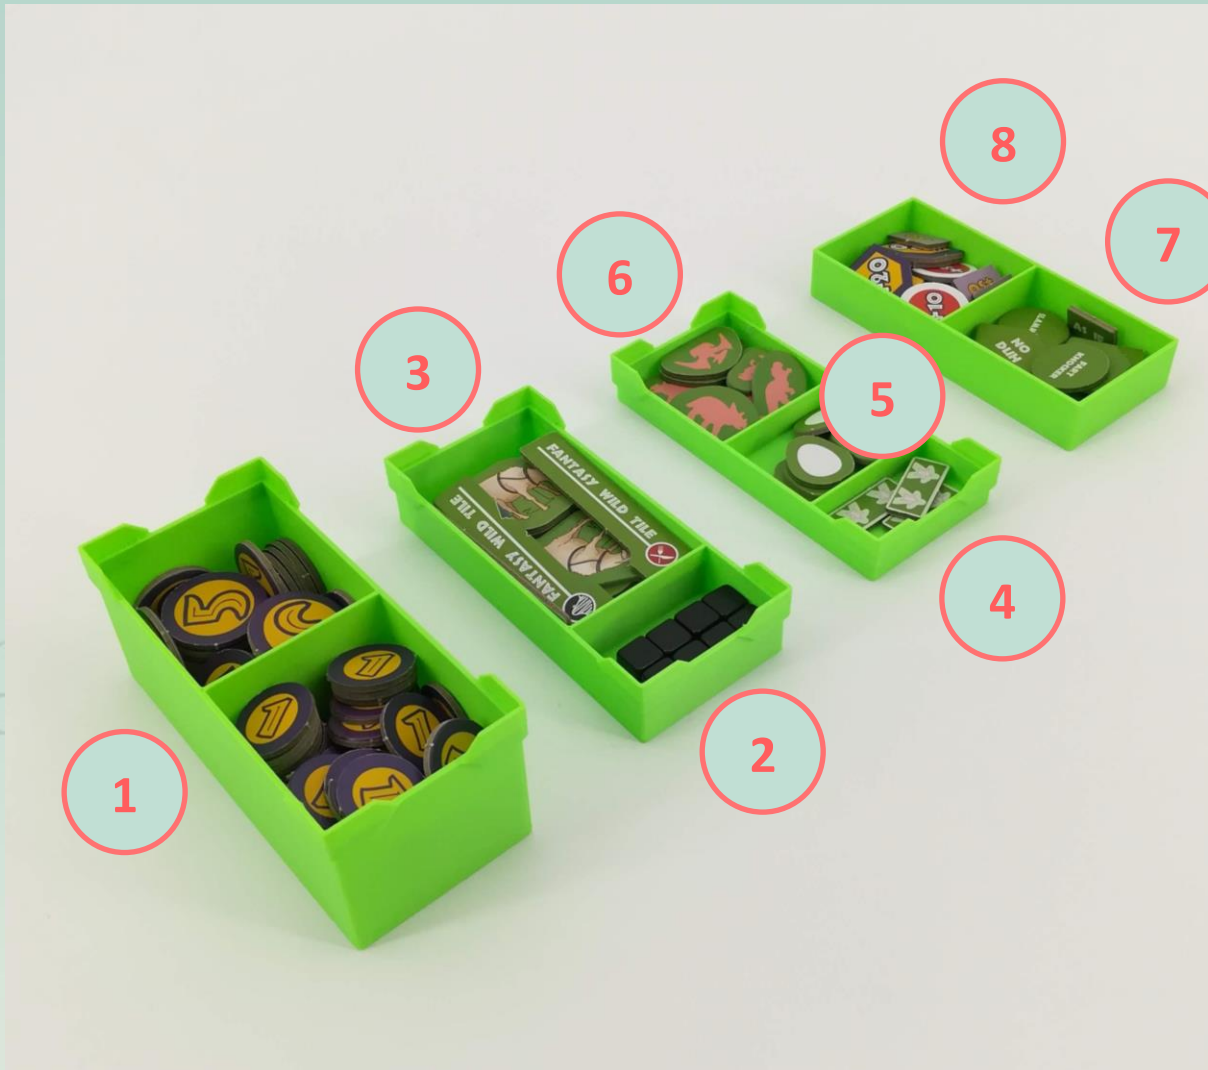

This might change, depending on your choice of card sleeves and if you own the expansion or not.

Dinosaur Box

This box will hold all the Dinosaur Meeples and the Mega Rex Token. As you can see in the right image, you have to place the Dinosaurs in a certain pattern to make them fit.

There are however different possible patterns and you do not necessarily have to choose the shown one.

Stackable Token Boxes

These boxes store most of the tokens:

1. Income Tokens
2. Limit Cubes
3. Goat Tokens & Attraction Type Tokens
4. Seat Tokens
5. Dino Egg Tokens
6. Baby Dino Tokens
7. Other Tokens
8. Modifier Tokens

2. Blank Lab Upgrade & Attraction Tiles
3. Lab Upgrade Tiles
4. Attraction Tiles

Component Storage #1

Place the Research Center Board, the Track Board, the Marketplace Board and all Park Boards and Lab Boards on one side of the box. Place the Facility Boards on top of them.

Component Storage #2

Place the Dino Recipe Tiles Box and the Paddock Box on top of the big boards.

Component Storage #3

Place all five Player Boxes on top of the Facility Boards.

Component Storage #5

Place the Dice Box and the Dinosaur Box like shown.

Component Storage #6

Place both Card Boxes in the remaining gap.

Component Storage #7

Fold the Meeple Bag like shown, and then place it together with the Stackable Token Boxes in the game box.

Component Storage without the expansion

If you do not own the expansion, remove all card dividers and the lowest of the four Token Boxes (like shown). Your Player Boxes are not properly secured in this case, but everything will fit in the box and it will (almost) close completely.
