Three stackable Worker Boxes

All compartments in these boxes are having the same size. So, place the workers wherever you want.

When placing the workers, make sure to place them in two layers, always placing them on their flat side, so the boxes will stack without any problem.

Nine stackable Resource & Token Boxes

These Token Boxes form two towers when placed in the game box. One (#1, #2 & #3) is completely round, the other one (#4, #5 & #6) has a cutout on one side. Keep this in mind, when storing the components in these boxes.

1. Berries & Plastic Saddles
2. Occupied Tokens & Pebbles
3. Point Tokens
4. Twigs
5. Axolotl Tokens (upper compartment), Rugwort & Market Tokens (other two compartments)
6. Pearls & Resin

Card Boxes

There is no special order when placing the cards in the Card Boxes. Look below for a full list of included dividers.

Please note that there are two separators for the Big Card Box included, that you can use if you do not own all expansions or do not sleeve your cards.

The following dividers are included:

Big Card Box: "Bellfaire", "Critter & Constr(uctions)", "Discovery", "Pearlbrook", "River Destinations" & "Spirecrest"

Small Card Box: "Adornment", "Bellfaire", "Forest", "Pearlbrook", "Powers", "Sp(ecial) Event", "Spirecrest", "Weather"

Wonder Box

Place all Cardboard Wonders and Signs in this Box. There is no special order when placing them.

Big Critter & Cardboard Token / Die Boxes

1. Big Critter Meeples
2. Solo Game Die
3. Basic Event Tiles, Flower Festival Event Tile, Garland Award Tiles

Two Stackable Token Boxes

1. Everdell Map Tiles
2. Occupied Token (only if you own the Everdell Collector's Edition)
3. Point Tokens (only if you own the Everdell Collector's Edition)

Game Board Tiles

All Game Board Tiles and the Instructions are kept in one of the expansion boxes. If you do not own an expansion, simply skip this step and place the Game Board Tiles in the Base Game Box before placing any of the insert's boxes. In this case, the Base Game Box will not close completely.

Please note: This chapter is only for reference or if you are having problems, placing everything within the expansion box. There is no reason to follow this part step by step, as there are countless other possible ways of storing the Game Board Tiles.
