

## List of Contents

1. Three stackable Token Boxes
2. Two Card Box for all Small Cards
3. Card Box for Quest and Encounter Cards
4. Two Map Tile Boxes

### **Card Box #1**

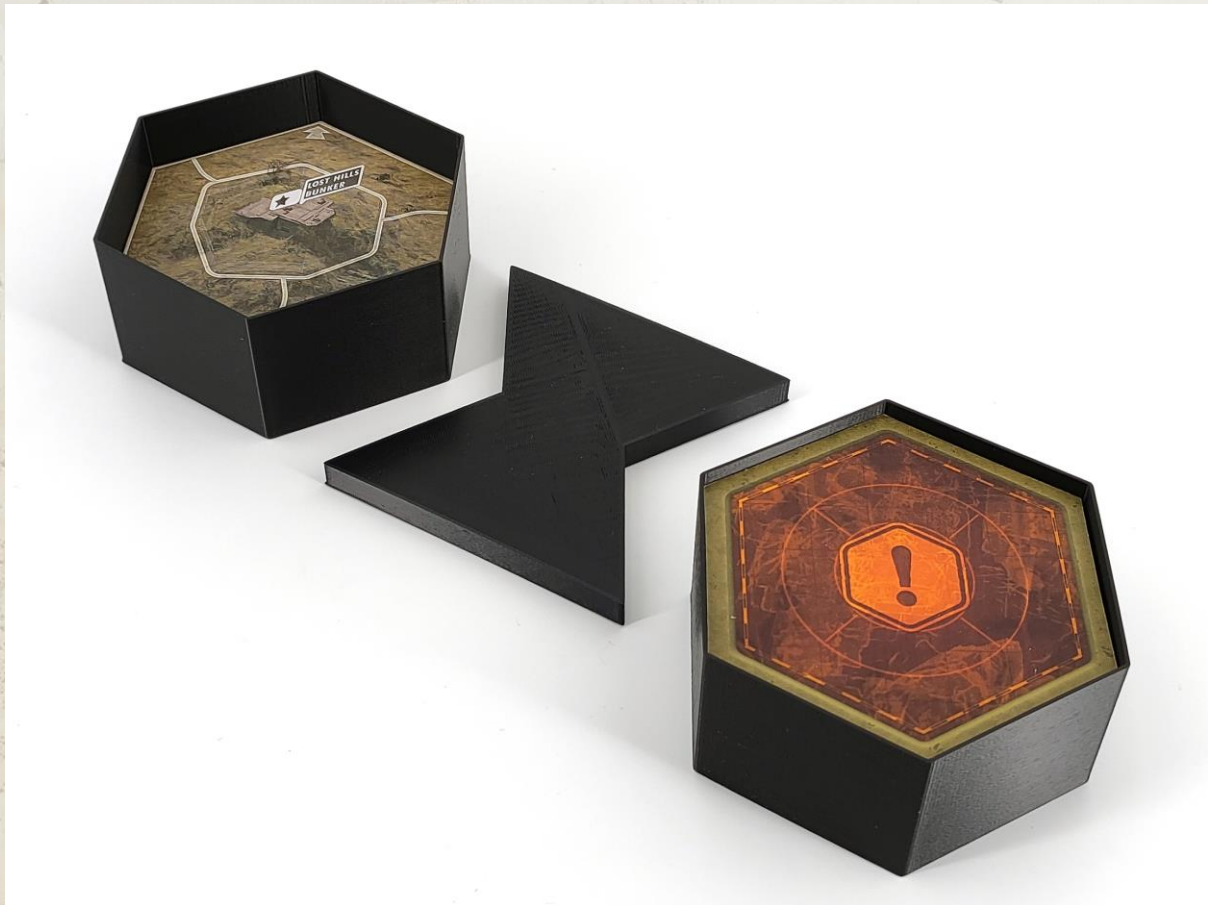

This card box comes with eight dividers. Four are used from the start (see below). The other four are used during the game, when the corresponding Vaults come into play.

The following dividers are always used (from front to back):

1. Settlement Encounter Cards – Only starting cards
2. Wasteland Encounter Cards – Only starting cards
3. Card Library
4. Trashed Cards

There is a special separator that can be used, when you do not own the “New California” expansion. It is plugged into the slots of the card box.

## Map Tile Boxes

These boxes are used to store all Map Tiles. There is no special order.

## Card Box #2

These two boxes are used for all small cards. Depending on which expansions you own and if you are using sleeved cards, you can use the small box, the big box or both boxes to store all the small cards. The following picture shows you which dividers are used for which cards:

### Stackable Token Box #1

1. S.P.E.C.I.A.L. Tokens
2. V.A.T.S. Dice & Assist Die
3. Blue Cap Tokens
4. Red Cap Tokens

### Stackable Token Box #2

1. Power Tokens & Double-Sided Power Token
2. Pegs
3. Trait Tokens
4. Blue Faction Tokens
5. Red Faction Tokens
6. Character S.P.E.C.I.A.L. Tokens
7. C.A.M.P. Tokens
8. Quest Markers

### **Stackable Token Box #3**

1. Enemy Tokens
2. Character Miniatures (No special order needed)

### Component Storage #1

Place both Map Tile Boxes with the placeholder between them.

## Component Storage #2

Place the Card Box for Quest and Encounter Cards and the placeholder like shown. Please Note: The placeholder is only needed in the “Unsleeved”-Version.

### Component Storage #3

Place the Card Boxes for Small Cards like shown and then slide them over to the Card Box for Big Cards.

#### Component Storage #4

Place the Player Boards on top of the Map Tiles Boxes, place the Token Box in the remaining gap and place the Scenario Sheets on top of the Token Box.

### Component Storage #5

Place the other components as shown. The box should close without any problems.
