## **Product Specifications**

Hennessy is synonymous with comfort, beauty, and durability. It epitomizes attention to detail and the desire to create a product in perfect harmony with its environment.

Our product is a premium quality floor made from 100% well-managed forests, produced to exceed the strictest official quality standards. We apply our many years of experience to assure a superior construction and finish while maintaining great care of our environment.

Our classic grade wood floors are carefully selected for character and structural soundness. Our method of timber selection combined with precision milling, including end matching, along with years of experience in wood ensure that your floor will be unique and last a lifetime.

### Hennessy Wood Floor: Superior Finish

One of the most critical steps in producing excellent wood flooring is the FINISH! Hennessy not only builds more durable floors, but our top-notch factory also-applied finish makes hardwood floor easy to maintain. With our multi layered UV-cured finish, you gain the assurance of superior durability and appearance. Our finish protects the wood floors while preserving fine details of the actual wood's character.

- Wear Resistant 5 times more resistant than competing finishes.
- Transparent Let's you appreciate the wood's natural beauty.
- Clean Hypoallergenic and healthy finish that dirt can't lay a finger on.
- Flexible Cross linked particles make the finish more elastic, persevering the floor's original appearance.
- UV protector Slows and reduces the power of the sun that causes wood to darken or yellow over time.

#### Hennessy Wood Floor: Superior Construction

Every Hennessy engineered wood floor is manufactured with up to multi-ply core that is comprised of eucalyptus, birch and beech wood species to deliver impeccable stability. Each flooring plank is individually inspected for its unique patterns, grain and colorations, and hand-carved, scraped, or kept smooth to complement its beautiful marks of individuality.

# We stand by each board we produce by claiming a Lifetime Structural Integrity Warranty.
