

WARRANTY GUIDE - ENGINEERED HARDWOOD

All warranties listed under this warranty guide are given to the original purchaser of our products and are non-transferrable. In the case that the original purchaser is not the owner of the home in which the flooring is installed, the end user at the time of installation is given all warranties listed under this warranty guide. The flooring must be installed in accordance with Tropical Flooring's Installation Guide and maintained in accordance with Tropical Flooring's Care and Maintenance Guide.

Wood is a natural product with color variations, mineral streaks, and knots which is to be expected and considered part of the beauty of hardwood floors. Natural characteristics are not considered manufacturing defects. It is the responsibility of the installer to inspect each piece before installation. Any piece that appears to have a visual defect in terms of improper milling, grading, staining, and coating, should not be installed and should be reported before installation. Tropical Flooring accepts no responsibility for liabilities, claims, or expenses, including labor costs, where visual defects have been installed.
