

PISTA DDR5 RGB Memory 5600 MHz 16GB (2x8GB Kit) - TITANIUM

Part # 901508

UPC 781930229739

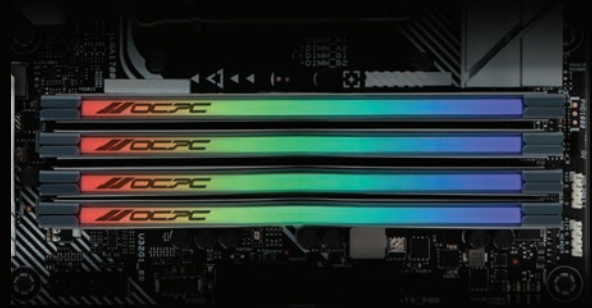

DDR5 RGB Memory with Extreme Performance

PISTA Series memory brings in a new era of memory performance, featuring unparalleled data transfer speeds compared to the previous generation of DDR4 memory.

PISTA Series is our latest Supreme Performance DDR5 family especially designed for the new generation of 12th Gen Intel® Core™ desktop processors and Z690 chipset motherboards. The OCPC PISTA Series DDR5 memory kits are engineered to push the speed limit from 4800MHz to 6000MHz+. All of our memory modules are constructed with the highest quality components including DRAM IC and Capacitors. This is all backed by our limited lifetime warranty.

- Series: PISTA
- Memory Type: DDR5
- Capacity: 16GB (2x8GB)
- Single Channel Kit
- Tested Speed: 5600MHz
- CAS Latency: CL 36-38-38-76
- Registered/Unbuffered: Unbuffered
- Error checking: Non-ECC
- SPD Speed: 5600MHz
- SPD Voltage: 1.25v
- Cooling: RGB Heatsink
- Warranty: Limited Lifetime

Customizable RGB Lighting
Support for the most popular RGB Sync Software
