VERTICAL EDGE

Due to the changing needs of a brand, and how important seasonal it is, the Carrello was designed to have interchangeable colored panels made of recycled plastic bottles, PET acoustic panels.

These panels are sound absorbing and add an elegant touch to any space. Custom colors are available and have a 5-8 week lead time depending on color.

VERTICAL EDGE

Inner case has 4 adjustable shelves.

Is compatible with a freezer and fridge unit via

V MATERIAL

ACOUSTIC PANELING

These panels are highly durable and easy to work with, making them a great choice for any soundproofing project. Plus, our panels come in a variety of colors and textures, so you can create the perfect look for your space. And because our panels are made from recycled materials, they're long lasting and will continue to look great for years to come. So if you're looking for an environmentally friendly and stylish way to soundproof your home or office, choose Acoustic Paneling!

V MATERIAL

BALTIC BIRCH

Baltic Birch plywood is a popular choice for high-end furniture due to its strength and durability. The wood is harvested from the Eastern European Baltic Sea region, and each piece features a unique color variation. Baltic Birch is composed of multiple thin sheets of birch veneer, which results in a more consistent, void-free product.

Wood options

We have access to all wood species and stains.

Please inquiry for more.

Cleared Edges.
