Cutting Instructions

From Fabric A, cut:

one Grinch panel
(Do not cut out the ornaments yet)

From the Binding Fabric, cut:

four 2-1/2" x WOF strips

From the Ribbon, cut:

twenty-four 3" lengths of ribbon

From the Black Felt:

cut the yardage in half, making two equal sized pieces. Exact dimensions aren't important, so long as you can layer them together in Step 4.

Assemble the Ornaments

Step 1: Following manufacturer's directions, fuse the wrong side of the ornament portion and number portion of the panel to the fusible web.

Step 2: Cut out each ornament on the black line.

Step 3: Using one of the felt pieces, fuse the wrong side of each picture to black felt, leaving at least 1/2" between ornaments. In the same fashion, fuse the wrong side of the number portion of the ornament to the second piece of black felt.

Step 4: Cut out each ornament 1/8" from the edge of the fabric. You should now have forty-eight ornament shapes, each fused to one layer of felt.

Step 5: Pin each picture side to a number side, felt pieces together, and place a folded piece of ribbon in the top area of the ornament so that 1/2" of loop shows. The raw edges of the ribbon will be hidden between the layers of felt. Stitch around the ornament at the edge of the fabric, being sure the ribbon is secured.

Assemble the Panel

Step 7: Layer the remaining portion of Fabric A (the wall hanging portion) with the batting and backing. Quilt as desired and trim to the edge of the Fabric A image (approximately 22" x 35"). Attach the binding.

Step 8: Sew the buttons to the tree, scattering them throughout the tree image and placing one in the Grinch's hand. Hang each ornament on the tree, numbers facing out. Turn over each ornament as the days pass, placing that day's ornament on the Grinch's hand!
