RVRN WHEELS

RVRN's parent company has 17 years of experience in OEM forged wheels and supplies for many top well-known brands. As the whole industry chain of forging manufacturer, a small team of engineers was in the midst of this constantly thinking about what they could do for car enthusiasts...They had grown disillusioned with the poor construction and selection of aftermarket wheels. With engineers' eyes for skillful design, what if, they wondered, they could not only offer quality aftermarket wheels to car enthusiasts, but involve them in the process of designing the wheels as well? What if they could help them create their idea of the perfect wheel? ... This was the birth of RVRN Custom Forged Wheels.

Custom Forged Wheel Series

Dedicated to high-end custom forged wheels

WHAT'S THE DIFFERENCE BETWEEN FULLY FORGED, CAST WHEELS, AND FLOW FORGED?

 INDEX	 Fully Forged	 Cast Wheels	 Flow Forged
Material Mark	6061 magnesium aluminum alloy	A356 silicon aluminum alloy	A356 / 6061 magnesium alloy
Tensile Strength	340--370 Mpa	260–280 Mpa	280-300 Mpa
Bending Strength	290-330 Mpa	180-230 Mpa	220-260 Mpa
Extend Rate	10%-17%	7%-10%	7%-10%
Rigidity	110-125	80-90	100-110

AND WHAT CAN YOU GET FROM FULLY FORGED?

- Unsprung mass 1KG equal to sprung mass 10KG. Strong and lighter weight(20%-30% weight reduction) higher load index to make a car ride better and handle better
- Fast heat dissipation, delay tire aging, And save fuel, better performance.
- Rigid material to reduce friction. Safe and durable, less maintenance

With RVRN Fully Forged Wheels, you are guaranteed the look you want without sacrificing the strength and lightness.

For example, RV-MB373 Forged for Rachird's 2020 Ford Shelby GT500, 20*11 ET:32 20*11.5 ET:50, weighs 25 lbs vs original cast wheel weighs 32 lbs.

Unsprung mass 28 lbs reduction, equal to sprung mass 280 lbs reduction, contributing more horsepower to the ground, better energy efficiency and handling experience. You're going to get one heck of a rush from the new agility and quickness you'll feel from your fully forged wheels!

RVRN WHEEL® FORGED 3-PIECE

The 3-piece wheel follows the same construction principles but the rim is created from two separate halves. This allows to create a far greater range of widths and offsets for a single wheel design.

To create a different width/offset only requires that the front or back half of the rim be changed. There are far more offset, backspace and width options available with 3-piece wheels.
