Dal 2021 Lanerossi è entrata a far parte del progetto SEAQUAL INITIATIVE.

SEAQUAL INITIATIVE lavora con NGOs, pescatori, autorità e comunità locali per aiutare a pulire i nostri oceani. I rifiuti marini provenienti dalle nostre spiagge, dal fondale e dalla superficie dell'oceano, dai fiumi e dagli estuari, vengono raccolti da programmi di pulizia. Vengono poi suddivisi nei diversi tipi di materiale e la parte in plastica viene pulita e trasformata in Upcycled Marine Plastic. Marchi e produttori attenti all'ambiente trasformano quindi questa nuova materia prima, completamente tracciabile, in prodotti sostenibili per ogni aspetto della nostra vita. Il potere d'acquisto dei consumatori è uno degli strumenti più potenti per il cambiamento. Scegliendo prodotti contenenti plastica marina riciclata, stai aiutando a pulire i nostri oceani.

INSIEME PER UN OCEANO PULITO.

Since 2021 Lanerossi has joined of the SEAQUAL INITIATIVE project.

SEAQUAL INITIATIVE works with NGOs, fishermen, authorities and local communities to help clean our oceans. Marine litter from our beaches, ocean floor and surface, rivers and estuaries, is collected by clean-up programs. It is then sorted into different material types and the plastic portion is cleaned and transformed into Upcycled Marine Plastic. Environmentally conscious brands and manufacturers then transform this new, fully-traceable raw material into inspiring sustainable products for every aspect of our lives. Consumer purchasing power is one of the most powerful tools for change. In choosing products containing Upcycled Marine Plastic, you are helping to clean our oceans.

TOGETHER FOR A CLEAN OCEAN.
