

LANEROSSI

Rivelazioni

Noi uomini abbiamo due modi per fare esperienza di ciò che ci circonda. Uno è quello corrente, dove possiamo avere chiare visioni dell'esistente; l'altro, meno scontato, ci fa intuire ciò che il mondo nasconde: un'epifania che arriva all'improvviso e rivendica come possibile l'intangibile / Una rivelazione che ci fa sentire e vedere le cose come se fosse la prima volta. È l'irreale che irrompe nel reale. In un'atmosfera sospesa, nella quale sembra che stia per succedere qualcosa di inatteso, anche i nostri oggetti quotidiani manifestano la loro natura atemporale e al di sopra della realtà, riempiendo di bellezza il luogo in cui si trovano. Può essere gioco, magia o un atto di anarchia, ma si presenta solo a chi è disposto a vederla.

Dal 1817 Lanerossi progetta e realizza prodotti di interior textile partendo da materie prime naturali e pure come la lana in tutte le sue qualità, lavorate con cura e attenzione artigianali. Un processo meticoloso che mira a realizzare un design pregiato e al tempo stesso pratico, capace di arricchire il quotidiano.

Revelations

We humans have two ways of experiencing our surroundings. One is the ordinary way, where we have a clear view of what exists; the other, less obvious way lets us glimpse what the world conceals: an epiphany that arrives out of nowhere and reclaims the intangible as possible/A revelation that makes us feel and see things as though for the first time. The unreal breaking through into the real. In a state of suspense, in which something unexpected seems to be about to happen, even everyday objects reveal their timeless and unreal nature, imbuing the place where they are found with a sense of beauty. Whether it be play, magic or an act of anarchy, whatever it is only presents itself to those who are willing to see it.

Since 1817, Lanerossi has designed and produced interior textile products from pure, natural materials, including all categories of wool, working them with expert artisan care and attention. Our meticulous processes are aimed at creating fine yet practical pieces that enrich everyday life.

Dal 1817 Lanerossi progetta e realizza prodotti di interior textile partendo da materie prime naturali e pure, lavorate con cura e attenzione artigianale. Un processo meticoloso che mira a realizzare un design pregiato e al tempo stesso pratico capace di arricchire il quotidiano. Per noi la creatività è un principio centrale: produciamo complementi tessili in collezioni stagionali e pezzi continuativi.

Coperte, plaid, lenzuola e cuscini d'arredo di valore che possano migliorare la qualità degli ambienti. La nostra ambizione è aiutare le persone a rendere le case dei luoghi che li rappresentino e supportare designer e architetti a progettare spazi. La nostra filosofia si basa sulla qualità e sostenibilità delle materie prime, sul progetto e sulla manifattura. La continua ricerca nel design, il know-how specifico nel tessile ed un ciclo produttivo interno, ci permettono di curare i dettagli in ogni prodotto.

L'approccio sperimentale improntato alle collaborazioni, che nel tempo ha visto coinvolti nella vita Lanerossi artisti, designer e creativi come Bruno Munari, Bob Noorda, lo Studio pubblicitario di Armando Testa, Pino Tovaglia, Salvatore Gregorietti e Claudia Morgagni, perdura anche oggi, in un desiderio di valorizzare e ripensare il patrimonio visivo ereditato.

Una storia nei complementi tessili lunga
più di duecento anni, nata in Veneto dalla visione dell'imprenditore
Alessandro Rossi, ma con valori internazionali.

Valori: sostenibilità

Crediamo nel mantenere relazioni durature e di rispetto reciproco con i clienti, i dipendenti, i collaboratori e il territorio; crediamo nei prodotti di lungo ciclo, nell'inclusività e nell'economia circolare. La filatura cardata ci consente di produrre partendo da materie prime riciclate e tracciabili a certificazione GRS. Una particolare attenzione viene dedicata alla scelta di allevamenti che garantiscono un ottimo trattamento degli animali, conformemente ai protocolli RWS. L'energia elettrica utilizzata in produzione proviene unicamente da fonti rinnovabili. Volendo essere sempre più attenti alla salvaguardia dell'ambiente e al rispetto delle persone, l'adottare e adeguare più ampie e nuove certificazioni è un nostro imperativo.

La nostra filosofia si basa sulla qualità e sostenibilità delle materie prime, sul progetto e sulla manifattura. Una continua ricerca sul design del prodotto abbinata allo sviluppo tecnologico, frutto di esperienza, tradizione e di una specifica vocazione industriale orientata al futuro.

Lanerossi Manifesto

Since 1817, Lanerossi has designed and produced interior textile products from pure, natural materials, working them with expert artisan care and attention. Our meticulous production processes are aimed at creating fine yet practical pieces that enrich everyday life. At Lanerossi, creativity is key: we create fabric accessories for both seasonal collections and a line of classic mainstays.

Our high-quality blankets, throws and decorative pillows improve the atmosphere of any room. Through our products, we hope to help people turn their houses in places that reflect them and inspire architects and designers as they furnish interiors. High-quality sustainable materials, impeccable designs and advanced production methods are at the core of our philosophy. Ongoing product development, specialized expertise and an in-house production chain ensure close attention is paid to the details of each individual product.

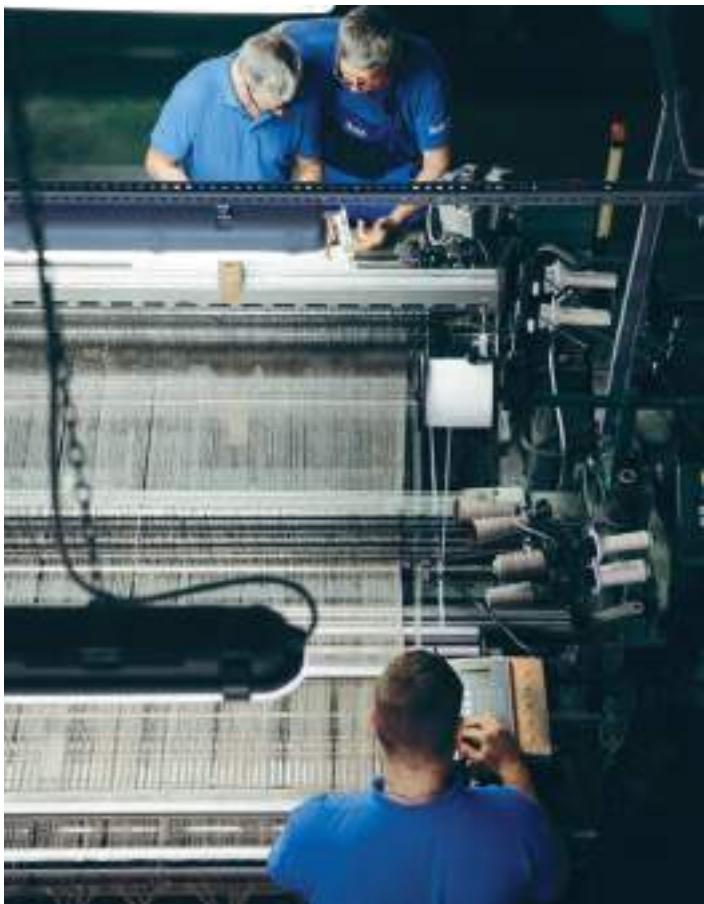

Our values: Sustainability

We believe in forging long-lasting relationships with clients, employees, collaborators and the land, built upon mutual respect, and we believe in products that are made to last, inclusivity and circular economies. Carded spinning enables us to manufacture our products using recycled and traceable GRS-certified primary materials. Special attention is paid to our choice of farms to ensure that animals are handled in the best possible way, in accordance with RWS protocols. Electricity used during the manufacturing process comes solely from renewable sources. As we strive to become ever more environmentally friendly and respectful of individuals, our imperative is to adopt and adapt to new and more extensive certifications.

At Lanerossi, creativity is a fundamental value: we create linens and fabric accessories for interiors, both as part of seasonal collections and a line of classic mainstays.

Shaped by collaborations with respected artists, designers and creatives such as Bruno Munari, Bob Noorda, Armando Testa's advertising studio, Pino Tovaglia, Salvatore Gregorietti and Claudia Morgagni, Lanerossi's experimental approach continues to set the brand apart, thanks to a desire to highlight and rethink its visual heritage.

We believe in forging long-lasting relationships with clients, employees, collaborators and the land, built upon mutual respect, and we believe in products that are made to last, inclusivity and circular economies.

Memory is My Home, Edizione Archivio: Plaid Triennale

Lanerossi inaugura il progetto di edizioni d'archivio Memory is My Home e presenta Triennale, il plaid e pattern limited edition. Il plaid reversibile Triennale è il primo prodotto della linea Memory is My Home e nasce dalla riedizione del pattern originale omonimo, creato nel 1933 in due varianti e presentato presso il Palazzo dell'Arte durante la V Triennale di Milano di quell'anno.

Lanerossi Triennale
Archive Edition: Memory is My Home
Plaid reversibile
Composizione: 100% lana vergine
Misure: 140×200 cm Peso: 350 gr/sqm

Il pattern Triennale è una composizione di punti e righe su grande scala, chiara interpretazione dello stile modernista nel campo del textile design e le tonalità scelte oggi risaltano grazie ad un effetto colour block vibrante che unisce materia e colore. L'aspetto tipico delle coperte tradizionali è ottenuto tramite lunghi processi di finissaggio che conferiscono al contempo morbidezza al tatto. Questa edizione del plaid Triennale è accompagnata da un poster prodotto in 300 pezzi che reinterpreta il pattern e i primi 100 pezzi, sia del plaid Triennale sia del poster, sono in edizione unica e numerata.

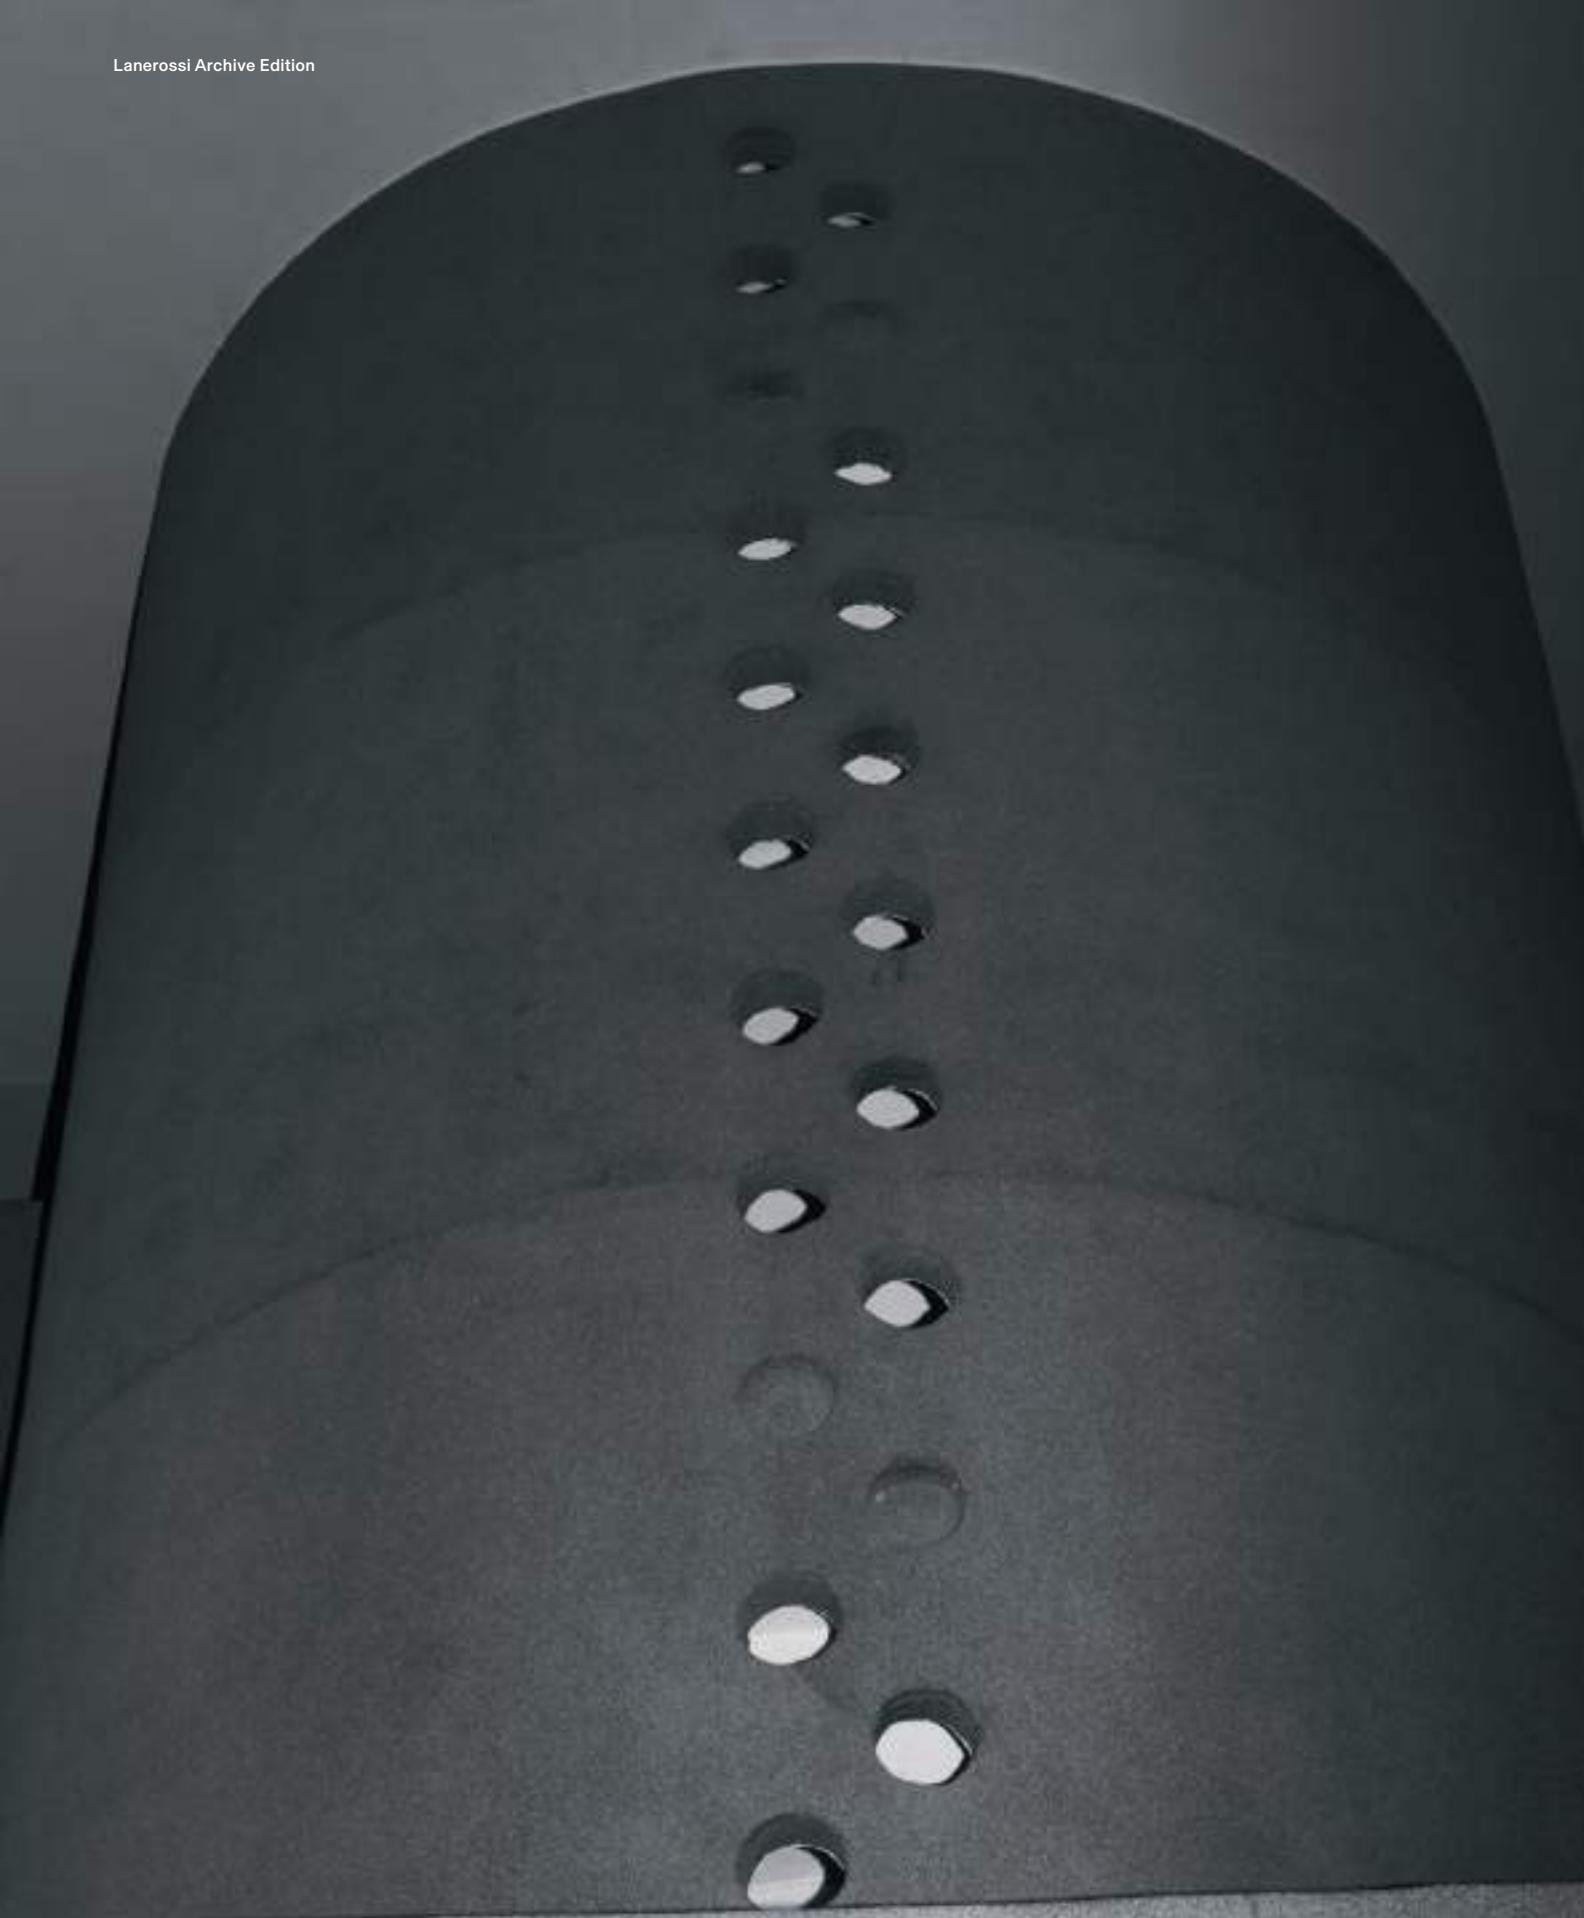

Memory is My Home, Archive Edition: Triennale Throw

Lanerossi unveils the archive editions collection Memory is my Home and to mark the occasion, is launching Triennale, the limited-edition throw and pattern. The Triennale throw is the first product in the Memory is My Home collection and represents a revival of the original pattern bearing the same name, created in 1933 in two variations and presented at Palazzo dell'Arte during the 5th Milan Triennale exhibition. The Triennale pattern is a large-scale composition of dots and stripes, a clear expression of modernist style in the realm of textile design, and the chosen shades stand out today thanks to vibrant color-blocking that unites material and color. The typical look of traditional blankets is achieved through lengthy finishing techniques that rendered the throw even softer. This edition of the Triennale is accompanied by a poster produced in only 300 units that reproduces the pattern of the plaid.

Dal 2021 Lanerossi è entrata a far parte del progetto SEAQUAL INITIATIVE.

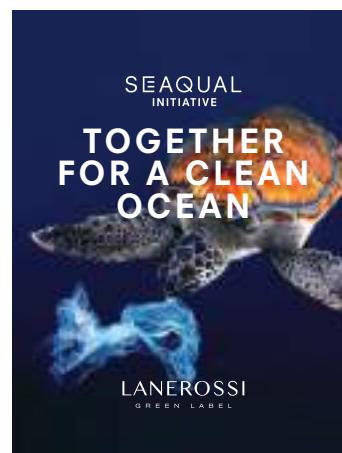

Since 2021 Lanerossi has joined of the SEAQUAL INITIATIVE project.

SEAQUAL INITIATIVE lavora con NGOs, pescatori, autorità e comunità locali per aiutare a pulire i nostri oceani. I rifiuti marini provenienti dalle nostre spiagge, dal fondale e dalla superficie dell'oceano, dai fiumi e dagli estuari, vengono raccolti da programmi di pulizia. Vengono poi suddivisi nei diversi tipi di materiale e la parte in plastica viene pulita e trasformata in Upcycled Marine Plastic. Marchi e produttori attenti all'ambiente trasformano quindi questa nuova materia prima, completamente tracciabile, in prodotti sostenibili per ogni aspetto della nostra vita. Il potere d'acquisto dei consumatori è uno degli strumenti più potenti per il cambiamento. Scogliendo prodotti contenenti plastica marina riciclata, stai aiutando a pulire i nostri oceani.

INSIEME PER UN OCEANO PULITO.

SEAQUAL INITIATIVE works with NGOs, fishermen, authorities and local communities to help clean our oceans. Marine litter from our beaches, ocean floor and surface, rivers and estuaries, is collected by clean-up programs. It is then sorted into different material types and the plastic portion is cleaned and transformed into Upcycled Marine Plastic. Environmentally conscious brands and manufacturers then transform this new, fully-traceable raw material into inspiring sustainable products for every aspect of our lives. Consumer purchasing power is one of the most powerful tools for change. In choosing products containing Upcycled Marine Plastic, you are helping to clean our oceans.

TOGETHER FOR A CLEAN OCEAN.

PURE NEW WOOL

WOOLMARK® PURE NEW WOOL
Sono certificati WOOLMARK® PURE NEW WOOL i prodotti Lanerossi realizzati utilizzando Pura Lana Vergine. Questa certificazione internazionale è garanzia di contenuto e di qualità e attesta il rispetto di stringenti standard qualitativi.

WOOLMARK® PURE NEW WOOL
Lanerossi products made from pure new wool are WOOLMARK® PURE NEW WOOL certified. This international certification is a guarantee as to the composition and quality of the item, attesting to compliance with rigorous qualitative standards.

STANDARD 100 by OEKO-TEX®
Lo STANDARD 100 by OEKO-TEX® garantisce che i prodotti Lanerossi realizzati interamente in lana vergine siano privi di sostanze nocive e quindi siano sicuri per la salute umana e per l'ambiente. Questa certificazione inoltre regolamenta e garantisce che le eventuali sostanze prodotte durante le fasi di lavorazione dell'articolo siano al di sotto dei limiti previsti dagli standard OEKO-TEX.

STANDARD 100 by OEKO-TEX®
STANDARD 100 by OEKO-TEX® certification guarantees that Lanerossi products in pure new wool are free of harmful substances and thus safe for people and the environment. This certification also regulates the substances produced during each step of the manufacturing process, ensuring that they remain within the limits established by OEKO-TEX standards.

Certified by ICEA
(GRS 2019-127)

GLOBAL RECYCLED STANDARD (GRS)
Sono certificati Global Recycled Standard (GRS) i prodotti Lanerossi realizzati utilizzando fibre da riciclo pre-consumo. Global Recycled Standard punta a favorire la riduzione del consumo di risorse (materie prime vergini, acqua ed energia) e ad aumentare la qualità dei prodotti riciclati applicando rigidi criteri di sostenibilità sociale e ambientale che regolano i diritti dei lavoratori, la tracciabilità della produzione, l'uso di sostanze chimiche, l'approvvigionamento idrico, il recupero energetico, le emissioni e la gestione dei rifiuti.

GLOBAL RECYCLED STANDARD (GRS)
Lanerossi products made of pre-consumer recycled fibres are Global Recycled Standard (GRS) certified. The goal of the Global Recycled Standard is to reduce the consumption of resources (new raw materials, water, energy, etc.) and increase the quality of recycled goods by applying strict social and environmental sustainability criteria that guarantee workers' rights and product traceability while regulating chemical use, the water supply, energy recovery, emissions and waste management.

ENERGIA RINNOVABILE INTER RAO
Lanerossi ha scelto di utilizzare per le proprie attività produttive solo energia elettrica derivata da fonti rinnovabili (vento, acqua, sole e terra) prodotta e certificata da AB Inter Rao Lietuva.

RENEWABLE ENERGY FROM INTER RAO
For its manufacturing operations, Lanerossi has chosen to only use electricity from renewable sources (wind, water, sun and geothermal heat) produced and certified by AB Inter Rao Lietuva.

RESPONSIBLE WOOL STANDARD
I prodotti Lanerossi certificati Responsible Wool Standard (RWS) contengono lana proveniente da allevamenti gestiti in modo responsabile nel rispetto di stringenti criteri per il benessere animale e per la riduzione dell'impatto ambientale, mantenendo la tracciabilità lungo l'intero processo produttivo.

RESPONSIBLE WOOL STANDARD
Lanerossi's Responsible Wool Standard (RWS) certified products are made with wool from responsibly managed farms that meet stringent animal welfare and environmental impact standards and ensure traceability throughout the production process.
