

# NECKLACE SIZE GUIDE

## The Perfect Fit

The majority of our necklaces are made in the standard size of 16" (adjustable to 15") unless specified differently on individual product pages. To measure your necklace length at home, wrap a soft tape measure around your neck to determine your preferred length. Please note that this is only a guide and the length may vary depending on the individual.

## Bespoke

All of our signature fine chain necklaces can be made bespoke into either 16", 18" or 20" lengths. A bespoke fee is applicable depending on the request. If you require any assistance, please contact [info@sarahandsebastian.com](mailto:info@sarahandsebastian.com)
