Grogged Clay

A new generation: Use Keane Grogged clays when you want additional visual and tactile results. Grogged clay have a mix of fine and coarse sand and mullite, adding workability and strength to the clay body. There is less shrinkage during making and firing. Ideal for hand building, tiles, sculptural, Raku work and even wheel throwing - if care is taken to protect your hands.

Bisque 1000°C (Cone 06)

Keane's Slip Casting

LIQUID AND POWDER VERSIONS OF OUR MOST POPULAR BODIES,
 DEVELOPED AND MANUFACTURED IN AUSTRALIA.
