**custom
furniture**

- endless choice
- overwhelming customer experience

A transparency-focused approach to blur the lines between custom furniture and production pieces. *Almost Custom* is a streamlined ordering process that lowers the barriers of custom furniture by presenting a small selection of the most important factors.

Use this to aid your furnishing journey and easily place an order, or as a jumping off point for a more intensive design process.

1. dimensions

Size is the number one reason to choose custom. There's nothing quite like a perfectly proportioned piece.

3. shape

There are all kinds of shapes to choose from, each with a different personality that may suit your space.

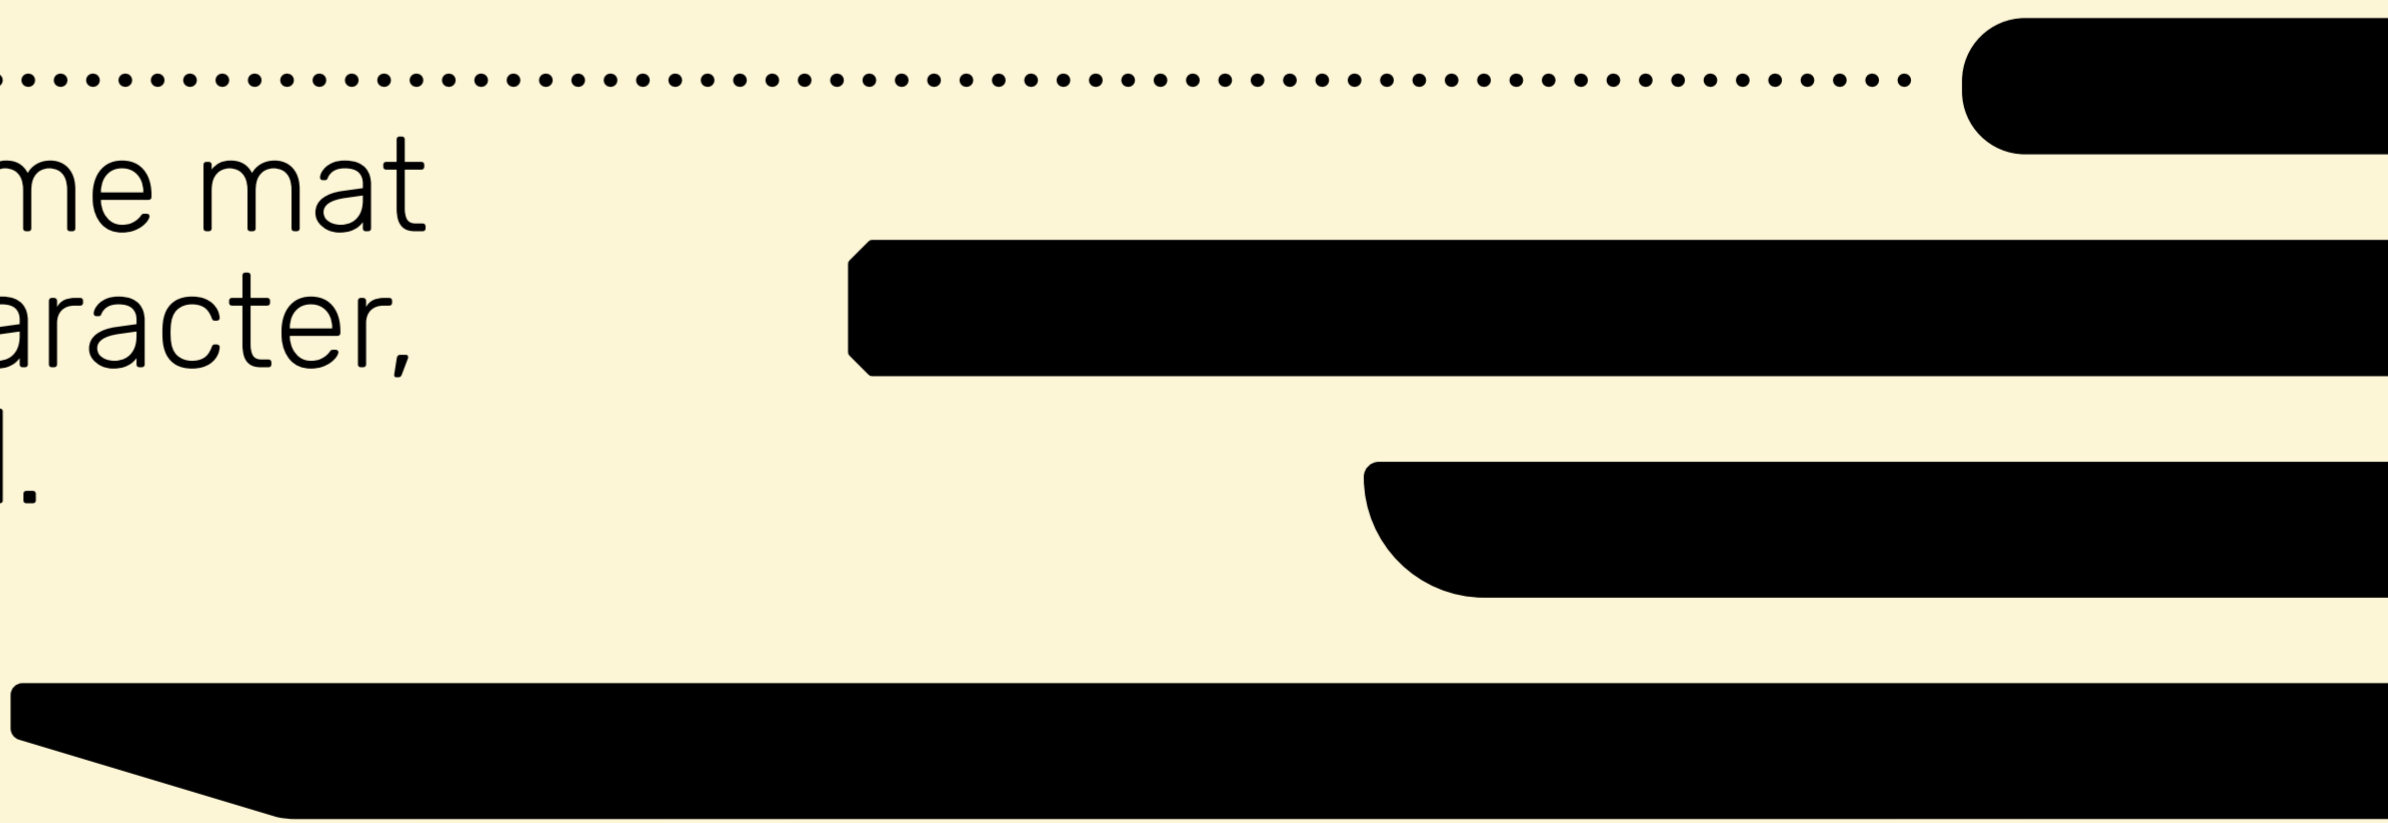

2. wood species

There are many locally available hardwoods that are sustainably sourced, affordable and durable.

4. edge profile

The edge profile is the welcome mat of a surface. Give it some character, or keep it simple and minimal.

6. extras

We're proud to offer complete furniture design and build services, and have been building custom fine furniture for nearly a decade. Inquire today!
