

R27 MLT

3-Button Remote Programming Procedure:

1. Locate the opener hanging in your garage and identify the color of learn button on the back.
2. Remove the visor clip from the back of the remote. Using the visor clip press and hold the program button on the back of the remote until the LED light turns on.
3. Press and release the button on the remote you wish to program the number of times indicated below. (use a button on the front of the remote)

Learn Button Color	Number of Presses
Yellow	1
Purple	2
Red/Orange	3
Green	4

4. Press and release any button on the remote, other than the one you just programmed in step 3, to exit remote programming mode.

5. Press and release the learn button on the back of the opener hanging in your garage.
6. Press and hold the same button on the remote from step 3 you wish to program to the opener. When two clicks are heard or the light flashes on the opener the remote is successfully programmed.
7. Install the visor clip to the back of the remote and test operation.

WARNING

In order to prevent possible **SERIOUS INJURY** or **DEATH** from a moving gate or garage door:

- keep remote controls out of the reach of children.
- Only use the remote control when the gate/garage door can be seen clearly, is properly adjusted, and there are no obstructions to door travel.
- Keep the gate/garage door in sight until it is completely closed. Do not allow anyone to cross paths with the gate/garage door while moving or operating the remote control.
